## ALBION RESOURCES LIMITED DIRECTORS' REPORT

---

The Directors present their report together with the financial statements of Albion Resources Limited (referred to hereafter as “the Company”) for the financial period ended 31 December 2024.

### **Current Directors**

The name and details of the Company's Directors in office during the financial period and until the date of this report are as follows. Directors were in office for the entire period unless stated otherwise.

Mr Steven Formica – Non-Executive Chairman

Mr David Palumbo – Non-Executive Director

Mr Christopher Tuckwell – Non-Executive Director (appointed 29 January 2025)

Mr Julian Jarman – Non-Executive Director (resigned 29 January 2025)

### **Principal Activities**

The principal activity of the Company during the financial period was the acquisition, exploration and evaluation of resource projects.

### **Operating Results for the Period**

The operating result of the Company for the reporting period was a loss of \$297,262 (2023: \$244,479).

### **Significant Changes in State of Affairs**

Other than those disclosed in this annual report, no significant changes in the state of affairs of the Company occurred during the financial period.

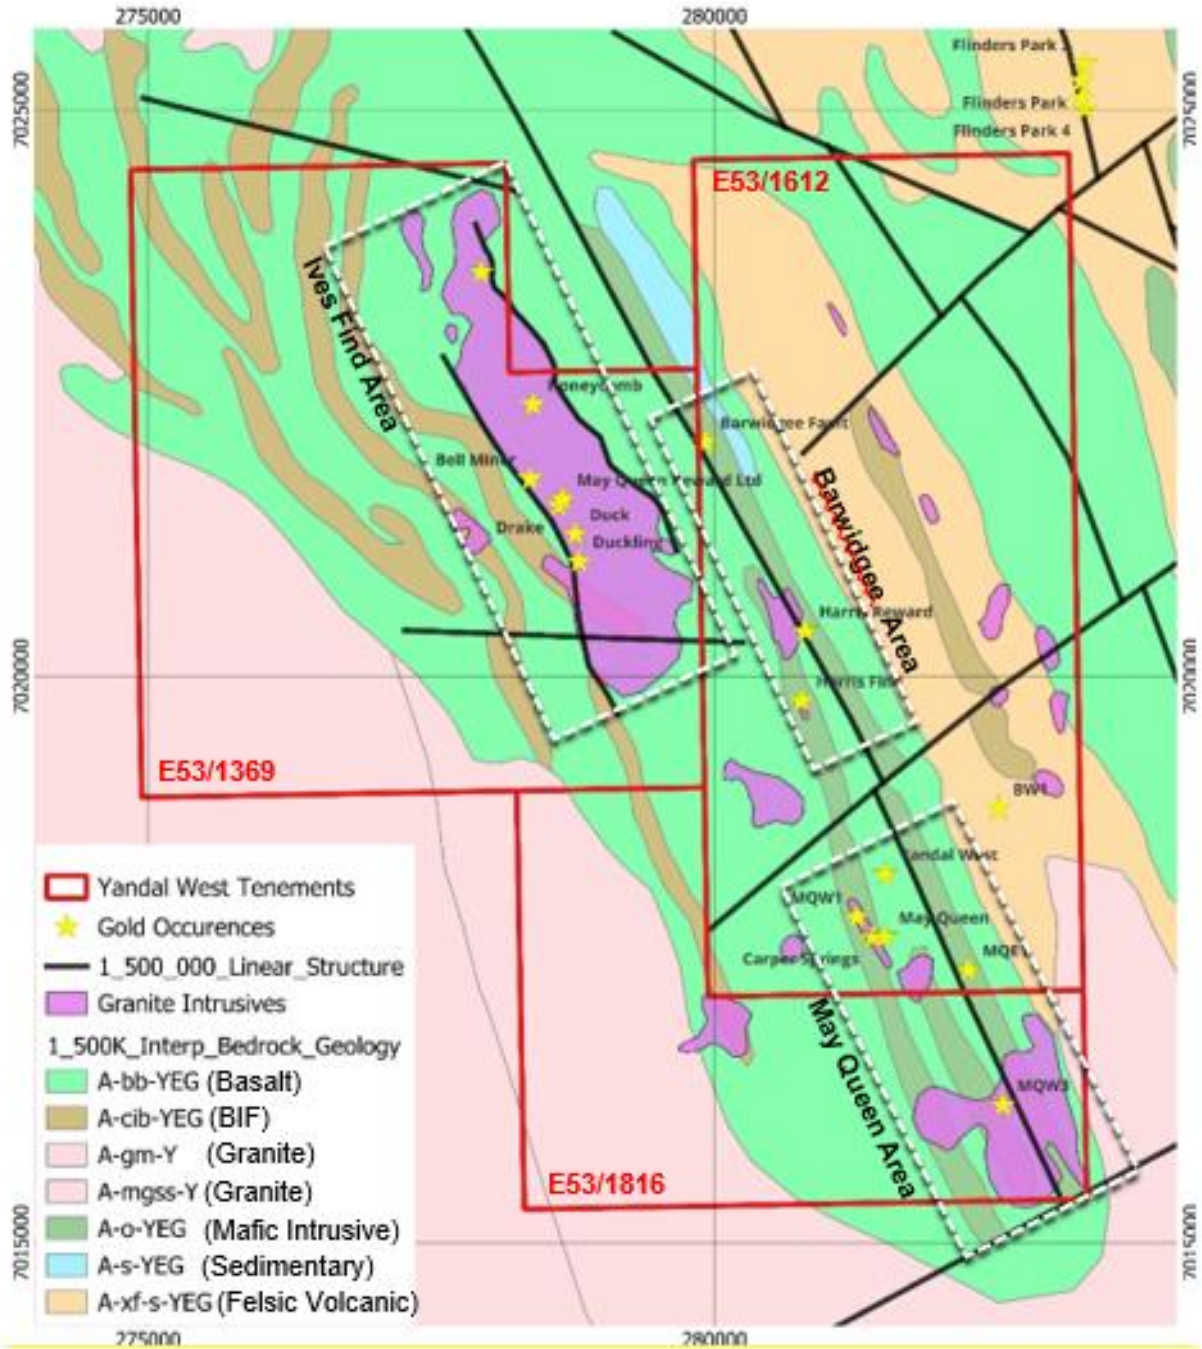

### **Review of Operations**

#### **Yandal West Project**

On 28 November 2024, the Company announced that it has entered into a binding tenement purchase agreement to acquire the Yandal West Gold Project from Great Western Exploration Limited (ASX: GTE). The Yandal West Gold Project encompasses three contiguous tenements covering a total area of 61km<sup>2</sup>. On completion of the acquisition and subject to conditions precedent being met (including shareholder approval), Albion will acquire an 80% ownership in E53/1612 and E53/1816 (20% Diversified Asset Holdings Pty Ltd) and 100% ownership in E53/1369. The Company successfully completed the acquisition subsequent to period end, on 29 January 2025.

The Project lies within the Northeastern Goldfields Province of the Yilgarn Craton, in the northern section of the Yandal Greenstone Belt. The Yandal Greenstone Belt is an elongate, fault-bounded, north-northwest-trending belt of Archean mafic rocks and intercalated banded iron formations and felsic volcanoclastic rocks. The belt contains the multi-million-ounce Jundee and Bronzewing gold deposits owned and operated by Northern Star Resources (ASX: NST).

**ALBION RESOURCES LIMITED  
DIRECTORS' REPORT**

**Figure 1:** GSWA 1:500,000 bedrock geology map and the location of the granite and porphyry intrusives (from GSWA 1:250,000 surface geology map) and location of main gold occurrences.

Several shallow high-grade gold targets have been identified within the Project for priority testing, including the Barwidgee Fault, Ives Find and May Queen Targets.

*Barwidgee Fault Target*

The Barwidgee Fault is a discrete largely untested structure evident in both magnetic and radiometric data interpretation. Four drill-holes completed by GTE in 2023 tested below and along strike from anomalous legacy Rotary Air Blast (RAB) drilling (GTE ASX Announcement 15 September 2022) and high-grade rock-chip results including 23.5g/t Au in the northern defined extremities of the Barwidgee Fault (GTE ASX Announcement 5

## ALBION RESOURCES LIMITED DIRECTORS' REPORT

July 2017). This drill program resulted in significant assay results from drill-hole 23YWRC023 including **4m @ 9.0g/t Au from 39m** and **7m @ 1.02g/t Au from 23m**, and validated the prospectivity of the Barwidgee Fault.

The significant results were recorded from a logged basalt-chert sheared contact, interpreted to dip to the west. Based on this interpretation, the mineralisation recorded by 23YWRC023 was not intersected by hole 23YWRC022 (not drilled deep enough), 23YWRC024 (located 50m south) and 23YWRC025 (positioned 600m to the north) and legacy RAB holes angled to the west potentially paralleled 23YWRC023.

Harris Find is a shallow drill defined gold mineralisation system hosted in the southern defined extremities of the Barwidgee Fault. Significant intercepts in historical drilling at Harris Find include:

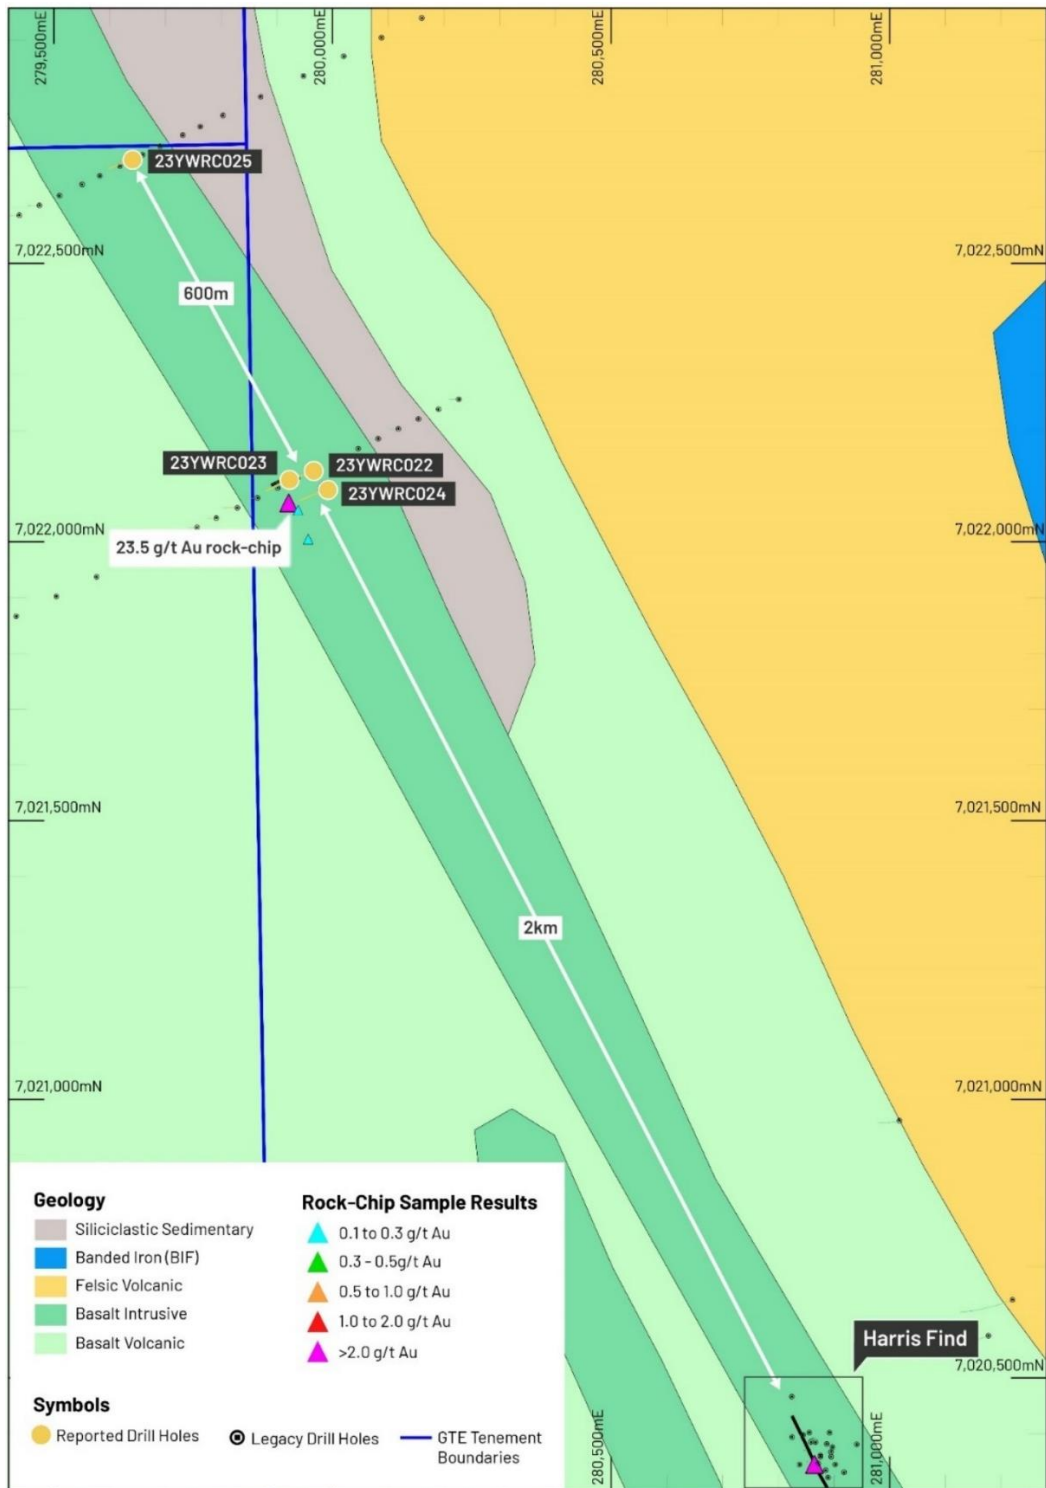

- **7m @ 4.3g/t Au from 27m (H11)**
- **12m @ 2.1g/t Au from 35m (GYWRC009)**
- **7m @ 1.13g/t Au from 44m (GYWRC017)**
- **2m @ 6.55g/t Au from 26m (H5)**

The Barwidgee Fault target represents an exciting drill ready target (heritage clearance already completed) with the potential to host a large gold mineralised system over its ~3km strike, not including any potential parallel shears. The Company plans to immediately follow up this drill target given acquisition completion which will comprise geochemistry and geophysics along the highly prospective unexplored 2km strike to the south, followed by drilling.

Figure 2: Cross section at Barwidgee Fault Prospect drilling.

**ALBION RESOURCES LIMITED  
DIRECTORS' REPORT**

**Figure 3:** Drill collar locations along the Barwidgee Fault structure as well as significant rock assay results overlaid on Geological Survey of Western Australia 1:500,000 Geological Map.

## ALBION RESOURCES LIMITED DIRECTORS' REPORT

---

The significant intersections at the Bell Miner and other prospects in the Ives Find Prospect area are all hosted close to the western contact of a granite intrusive that extends for 4 km by 750m. The geological setting at the Ives Find intrusive is very similar style as the recent Siona gold discovery by Yandal Resources, which reported 107m @ 1.0g/t from 96m to end of hole (estimated true width of ~30m).

The majority of drilling to date has focused on the central western portion of the Ives Find granite intrusive. The remaining areas of the intrusive remain underexplored. Interestingly, the Siona discovery occurs along the contact which has not been tested at Ives Find.

It is encouraging to see several significant drilling intersections open at depth at Bell Miner within the granite and these areas represent walk up drill targets in the area as well as the untested eastern shear contact.

The Company plans to immediately undertake geochemistry and geophysics to define new target areas for drill testing.

### May Queen

The May Queen Target area presents a geological setting of a greenstone belt that has been intruded by several granite intrusions of various sizes similar to Ives Find target and the Siona gold discovery by Yandal Resources. The mapped geology at May Queen Target is supported by magnetics data interpretation that suggests a consistent package of NW-trending greenstone rocks that has intruded by granitic intrusives.

Previously completed drilling at several prospects (May Queen, MQW1, MQW3, MQE1) across the May Queen Target has resulted in the following shallow, significant drilling results:

- **HFRC022: 4m @ 25.7g/t Au from 60m – May Queen**
- **HFRC019: 16m @ 1.6g/t Au from 13m incl. 3m at 7.7 g/t Au & 17m at 0.8 g/t Au - MQW3**
- **HFRC005: 2m @ 3.6g/t Au from 69m and 4m at 1.6 g/t Au from 53m – May Queen**
- **HFRC070: 2m @ 6.6g/t Au from 44m incl. 1m at 12.6 g/t Au – MQE1**

The majority of legacy drilling intersections are primarily structurally hosted mineralisation within basalt for example at May Queen and MQE1 and most likely represent the southern extent of the highly prospective Barwidgee Fault. However, further to the south at MQW3 significant mineralisation has been intersected in what has been mapped as granite which is potentially a similar geological setting to the Siona discovery. The larger widths of mineralisation within the granite in HFRC19 support bulk tonnage potential similar to Siona.

Given these encouraging developments, the Company plans to compile and review all the historical drilling, soil and rock geochemistry to identify and define new target areas for further exploration work and drill testing.

**ALBION RESOURCES LIMITED  
DIRECTORS' REPORT**

**Mongers Lake Project:**

The Mongers Lake Project covers a portion of the Yalgoo-Singleton Greenstone Belt in the Murchison Province of Western Australia, located between Capricorn Metals' Mt Gibson Gold Project and Silver Lakes' Rothsay Gold Projects.

During the period, the Company announced the results of the soil sampling program over the Rothsay South prospect. The results indicate two coherent lithium-in-soil anomalies that extend for 800m by 800m (LCT1) and 1 km by 400m (LCT2) which is open to the west (Figure 5). The lithium-in-soil values are high with the anomalies defined by >100 ppm Li<sub>2</sub>O however the core of the anomalies are >200 ppm Li<sub>2</sub>O and up to 355 ppm at LCT2 and up to 286 ppm in at LCT 1. The lithium-in-soil anomalies are also coincident with a variety of important rare metals highly characteristic of classic Lithium-Cesium-Tantalum (LCT) deposits including caesium, rubidium and beryllium.

**Figure 5:** Gridded lithium-in-soil image showing primary anomalies >100ppm and >200 ppm Li<sub>2</sub>O, and interpreted contact of the greenstone.

The Company also undertook a detailed mapping program during the period, helping to refine key prospect areas. This followed work where an artificial intelligence consultant conducted a prospectivity analysis of all previous work conducted over the Mongers Lake Project, including Albion's previous soil sampling programs across the Rothsay South, Red Well and Clay Pan prospect areas (see ASX announcements dated 23 April 2024 and 6 June 2023) and ground EM work (see ASX announcement dated 27 March 2024).

## ALBION RESOURCES LIMITED DIRECTORS' REPORT

---

### **Corporate:**

During the period, the Company announced it had received firm commitments from existing shareholders and new sophisticated investors to raise \$2,000,000 (before costs) via a two-tranche placement (Placement) of 44,444,444 fully paid ordinary shares at A\$0.045 per share (Placement Shares) comprising:

- 16,316,666 Placement Shares were issued on 9 December 2024 pursuant to the Company's existing placement capacity under ASX Listing Rules 7.1 (9,790,000) and 7.1A (6,526,666) ("**Tranche One**"); and
- 28,127,778 Placement Shares to be issued subject to shareholder approval ("**Tranche Two**").

Subsequent to period end, the Company obtained shareholder approval for all resolutions set out in the notice of general meeting dated 23 December 2024, including approval to issue the Consideration Securities for the acquisition of the Yandal West Project and Tranche Two Placement Shares. The Company issued the Tranche Two Placement Shares on 29 January 2025.

On 29 January 2025, Chris Tuckwell was appointed as Non-Executive Director replacing Julian Jarman.

### **Competent Persons Statement**

*The information in this announcement that relates to Exploration Results is based on and fairly represents information and supporting documentation prepared by Mr Leo Horn. Mr Horn is a member of the Australian Institute of Geoscientists. Mr Horn has sufficient experience relevant to the styles of mineralisation and types of deposits which are covered in this announcement and to the activity which they are undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' ("JORC Code"). Mr Horn consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.*

## DIRECTORS' REPORT

---

### Subsequent Events

On 29 January 2025, the Company completed the acquisition of Yandal West Project after receiving the requisite shareholder approvals at the 22 January 2025 shareholder meeting. The following transpired on completion of the acquisition:

- The Company raised an additional \$1.25M at \$0.045 through the issue of 28,127,778 fully paid ordinary shares;
- The Company issued 22,222,222 fully paid ordinary shares (\$1m) consideration shares and 30,000,000 share performance rights to the vendor of the project. 15,000,000 Tranche A share performance rights vest on the Company declaring a JORC compliant Mineral Resource of a minimum of 250,000oz of contained gold with a grade of at least 0.75g/t (cut-off grade of at least 0.5g/t) on the project tenements. 15,000,000 Tranche B share performance rights vest on the Company announcing a decision to mine;
- The Company issued 10,000,000 unquoted options to brokers in placement fees. The options are exercisable at \$0.07 and expiry of 29 January 2028.
- The Company issued 8,000,000 performance rights to directors and advisors per the terms and conditions set out in the Notice of Meeting on 23 December 2024. Performance rights vest on a 10-day VWAP of \$0.07 and expire on 29 January 2028.
- Christopher Tuckwell was appointed to the board as a Non-Executive Director replacing Julian Jarman

On 5 March 2025, the Company issued 2,000,00 unquoted options exercisable at \$0.07 expiring 29 January 2028 to technical advisors. On this date, the Company also announced the appointment of Chief Executive Officer (CEO) Peter Goh (effective 24 March 2025), and issued 3,000,000 unquoted options exercisable at \$0.07 expiring 29 January 2028 (issue effective on 24 March 2025).

### Auditor Independence

Section 307C of the Corporations Act 2001 requires our auditors, Hall Chadwick WA Audit Pty Ltd to provide the Directors of the Company with an Independence Declaration in relation to the audit of this financial report. The Directors have received the Independence Declaration which has been included within this financial report.

Signed in accordance with a resolution of the directors:

**Mr Steven Formica**  
**Non-Executive Chairman**

Dated this 12<sup>th</sup> day of March 2025

To the Board of Directors

## Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

As lead audit Director for the review of the financial statements of Albion Resources Limited for the half year ended 31 December 2024, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- any applicable code of professional conduct in relation to the review.

Yours Faithfully,

**HALL CHADWICK WA AUDIT PTY LTD**

**D M BELL FCA**  
**Director**

**ALBION RESOURCES LIMITED**  
**NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 31 DECEMBER 2024**

---

**1. CORPORATE INFORMATION**

Albion Resources Limited is a public listed company, incorporated and domiciled in Australia.

This financial report of Albion Resources Limited ("Company") was authorised for issue in accordance with a resolution of the directors on 12 March 2025.

**2. STATEMENT OF MATERIAL ACCOUNTING POLICIES**

**a) BASIS OF PREPARATION**

This interim financial report is intended to provide users with an update on the latest annual financial statements of Albion Resources Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Company. It is therefore recommended that this financial report be read in combination with the annual financial statements of the Company for the year ended 30 June 2024, together with any public announcements made during the half-year.

The financial statements were authorised for issue by the Board of Directors on 12 March 2025.

**b) Statement of Compliance**

The half-year financial report is a general purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134 Interim Financial Reporting. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim Financial Reporting. The half-year report does not include notes of the type normally included in an annual report and shall be read in conjunction with the most recent annual financial report.

**c) Basis of Measurement**

The financial statements have been prepared on a going concern basis in accordance with the historical cost convention, unless otherwise stated.

**d) Estimates**

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Company's last annual financial statements for the year ended 30 June 2024.

**e) Accounting policies**

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

**f) New and Amended Standards Adopted by the Group**

Accounting Standards that are mandatorily effective for the current reporting period in the half-year ended 31 December 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 July 2024. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and therefore no material change is necessary to the Group's accounting policies.

**ALBION RESOURCES LIMITED**  
**NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 31 DECEMBER 2024**

**3. SEGMENT REPORTING**

The Company has identified its operating segments based on the internal reports that are used by the Board (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The operating segments are identified by the Board based on the phase of operation within the mining industry. For management purposes, the Company has organised its operations into two reportable segments on the basis of stage of development as follows:

- Development assets
- Exploration and evaluation assets, which includes assets that are associated with the determination and assessment of the existence of commercial economic reserves.

The Board as a whole will regularly review the identified segments in order to allocate resources to the segment and to assess its performance.

During the half-year ended 31 December 2024, the Company had no development assets. The Board considers that it has only operated in one segment, being mineral exploration.

**4. REVENUES AND EXPENSES**

	<b>31 December 2024</b>	<b>31 December 2023</b>
	\$	\$
<b>(a) Revenue</b>

**10. CONTINGENT ASSETS AND CONTINGENT LIABILITIES**

There has been no change in contingent liabilities or contingent assets since the last annual reporting date.

**11. COMMITMENTS**

There has been no material change to the required commitments of the Company since the last annual reporting date.

**ALBION RESOURCES LIMITED  
DIRECTORS' DECLARATION**

---

The Directors of the Company declare that:

- a) The financial statements and notes of Company Limited for the half-year ended 31 December 2024 are in accordance with the *Corporations Act 2001*, including:
  - i. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and
  - ii. giving a true and fair view of the Company's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- b) In the Directors' option there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is signed in accordance with a resolution of the Board of Directors.

**Mr Steven Formica**  
**Non-Executive Chairman**

Dated this 12<sup>th</sup> day of March 2025

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF ALBION RESOURCES LIMITED

### Conclusion

We have reviewed the accompanying half-year financial report of Albion Resources Limited ("the Company") which comprises the condensed statement of financial position as at 31 December 2024, the condensed statement of profit or loss and other comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Albion Resources Limited does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Company's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134: *Interim Financial Reporting* and *Corporations Regulations 2001*.

### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

### Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
