ASX Announcement

\$32.2 million Asia Pacific contracts

- A package of five standalone, repeat contracts from an Asia Pacific military customer totaling \$32.2 million
- Delivery and cash payment is expected through calendar Q2 and Q3 2025

DroneShield Limited (ASX:DRO) (DroneShield or the Company) is pleased to announce it has received a package of five separate contracts totalling \$32.2 million from an in-country reseller for delivery to a military end customer in an Asian Pacific country. The reseller is a wholly-owned subsidiary of a multi-billion dollar, global, publicly listed customer that is contractually required to distribute the products to a major Asia Pacific military government department. The systems are for both vehicle-mounted and fixed Counter-UxS (counterdrone) systems. DroneShield expects to deliver all equipment and receive payment through Q2 and Q3 2025. No additional material conditions need to be satisfied.

DroneShield has previously received 7 standalone contracts from this reseller for this customer between May 2024 and January 2025 totalling approximately \$12.3 million. There is no obligation for any additional contracts from this customer.

DroneShield confirms that:

- it does not consider the identity of the counterparty/customer to be information that a reasonable person would expect to have a material effect on the price or value of the DroneShield's securities; and
- the announcement contains all material information relevant to assessing the impact of the

contract on the price or value of the DroneShield's securities, and is not misleading by omission.

Oleg Vornik, DroneShield CEO, commented: "In close succession to the earlier order announced on 29 January 2025 from this sophisticated customer and a close military ally of Australia in the Asia Pacific region, DroneShield products are again meeting the challenge set by them. The scale and frequency of orders has been increasing as leading counterdrone customers are moving from testing hardware to broader roll-outs. DroneShield is rapidly expanding all aspects of the business to meet this demand across multiple regions."

This announcement has been approved for release to the ASX by the Board.
