

**GENESIS**  
MINERALS LIMITED

# LAVERTON SITE VISIT

“ASPIRE 400”; THE TRUSTED AUSTRALIAN GOLD MINER

LAVERTON, WESTERN AUSTRALIA

6<sup>TH</sup> MARCH 2025

# Important information

## Not an Offer and Not Financial Product Advice

This Presentation does not constitute or contain an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any security in Genesis. This Presentation may not be released to US wire services or distributed in the United States. The distribution of this Presentation in the United States and elsewhere outside Australia may be restricted by law. Persons who come into possession of this Presentation should observe any such restrictions as any non-compliance could contravene applicable securities laws.

## Forward Looking Statements

Some statements in this Presentation regarding estimates or future events are forward-looking statements. They include indications of, and guidance on, future matters. Forward-looking statements include, but are not limited to, statements preceded by words such as “planned”, “expected”, “projected”, “estimated”, “may”, “scheduled”, “intends”, “anticipates”, “believes”, “potential”, “could”, “nominal”, “conceptual” and similar expressions. Forward-looking statements, opinions and estimates included in this Presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions.

Forward-looking statements are provided as a general guide only and should not be relied on as a guarantee of future performance. Forward-looking statements may be affected by a range of variables and risks that could cause actual results to differ from estimated results and may cause Genesis' actual performance and financial results in future periods to materially differ from any projections of future performance or results expressed or implied by such forward-looking statements. These risks and uncertainties include but are not limited to liabilities inherent in mine development and production, geological, mining and processing technical problems, the inability to obtain any additional mine licenses, permits and other regulatory approvals required in connection with mining and third party processing operations, competition for among other things, capital, acquisition of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, changes in commodity prices and exchange rate, currency and interest fluctuations, various events which could disrupt operations and/or the transportation of mineral products, including labour stoppages and severe weather conditions, the demand for and availability of transportation services, the ability to secure adequate financing and management's ability to anticipate and manage the foregoing factors and risks. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information. There can be no assurance that forward-looking statements will prove to be correct.

## Competent Person's Statements

The information in this Presentation that relates to:

- Mineral Resources and Ore Reserves estimates for the Genesis' projects are extracted from Genesis' ASX announcement 21<sup>st</sup> March 2024 "Growth strategy underpinned by robust Reserves"
- Production Targets for the Genesis' projects are extracted from Genesis' ASX announcements 21<sup>st</sup> March 2024 "Growth strategy underpinned by robust Reserves" and 2<sup>nd</sup> September 2024 "Genesis increases FY25 production outlook"
- Exploration Results for Gwalia are extracted from Genesis' ASX announcement 11<sup>th</sup> November 2024 "Strong drill results support accelerated growth"
- Exploration Results for Tower Hill are extracted from Genesis' ASX announcement 21<sup>st</sup> March 2024 "Growth strategy underpinned by robust Reserves"
- Exploration Results for Jupiter and Westralia were previously released by Dacian (DCN) to the ASX

In each case above, Genesis confirms that it is not aware of any new information or data that materially affects the information included in the market announcements and Genesis confirms that all material assumptions and technical parameters underpinning the Mineral Resource and Ore Reserve estimates in the market announcements continue to apply and have not materially changed. Genesis confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the previous announcements.

References in this Presentation to "Resources" are to Mineral Resources estimates and references to "Reserves" are to Ore Resource estimates. Mineral Resources in this Presentation are inclusive of Ore Reserves.

## No Liability

Genesis Minerals Limited has prepared this Presentation based on information available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions or conclusions contained in this announcement. To the maximum extent permitted by law, none of Genesis Minerals Limited, its directors, officers, employees, associates, advisers and agents, nor any other person accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this announcement or its contents or otherwise arising in connection with it.

**Release authorised by:** Raleigh Finlayson, Managing Director, Genesis Minerals Limited.

# Vision and Core Values

**A**ccountable

We are owners of our commitments

**S**ustainable

Responsible Actions, Positive Impact

**P**eople First

Protect, Respect, Support

**I**ntegrity

Doing the right thing even when no-one is watching

**R**esults

We execute, We deliver, We grow

**E**mpower

Enabling our people to think and act like owners

# Acknowledgment of Country

Genesis acknowledges the Nyalpa Pirniku people who are the Traditional Owners of the lands on which we meet today.

We recognise their continuing connection to lands, waters and communities and pay our respect to the Elders past, present and emerging.

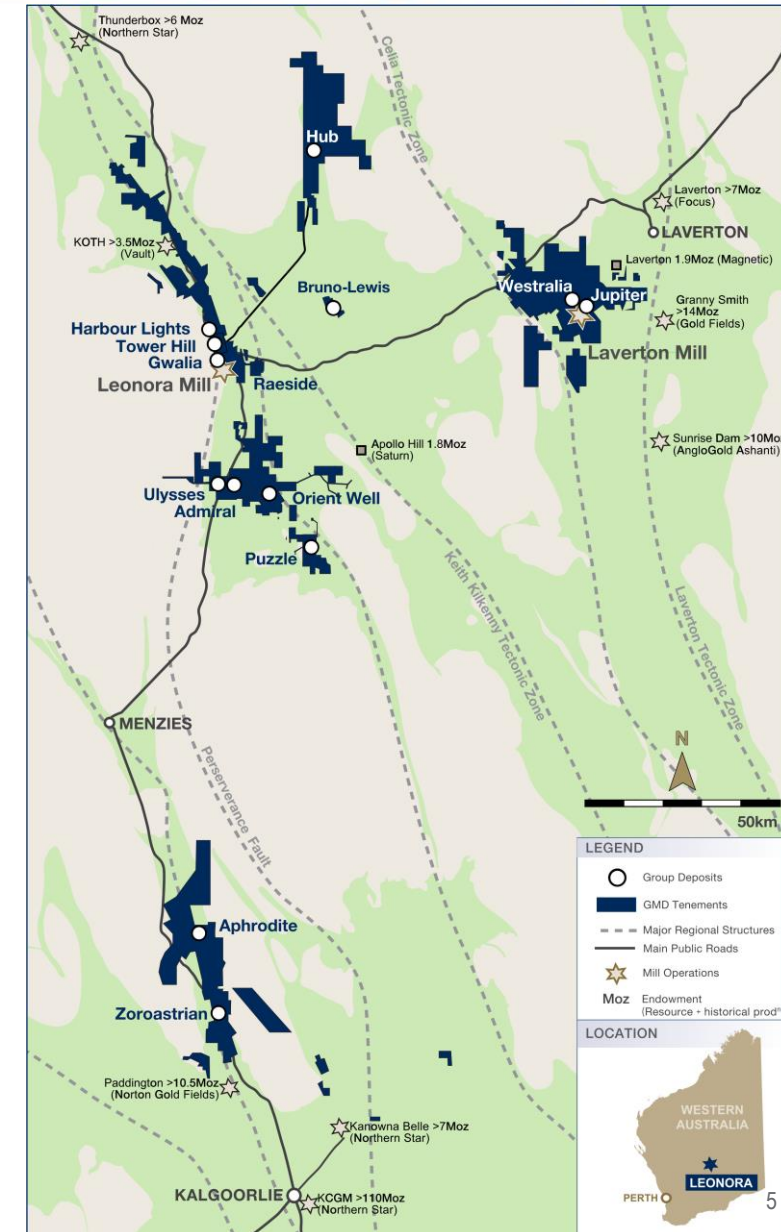

# One production centre in Western Australia

- ▶ **Simple and flexible - One production centre:**
  - **Long ore** - 230Mt Resources and 45Mt Reserves; Genesis has the gold
  - **Two mills** - Ore flows west to Leonora or east to Laverton; **Total 4.4Mtpa**
  - **Baseload** - Gwalia, Tower Hill deposits **plus “top-ups”**
- ▶ **Progressive economics** - Rising volumes / falling costs / rising cash flows
- ▶ **Playing a “long game”** - Envable gold inventory, strategic management team, “future-proofing”, preserving optionality
- ▶ **What is most important to us?**
  - Trusted and progressive
  - People / succession planning
  - Safety and community
  - “ASPIRE 400” accelerated growth strategy - Evaluation of low capital, NPV accretive opportunities to bring ounces forward **ONGOING**

## ➡ TOTAL SHAREHOLDER RETURNS

*Following an intense period of corporate activity, Genesis is focused on accelerated organic growth*

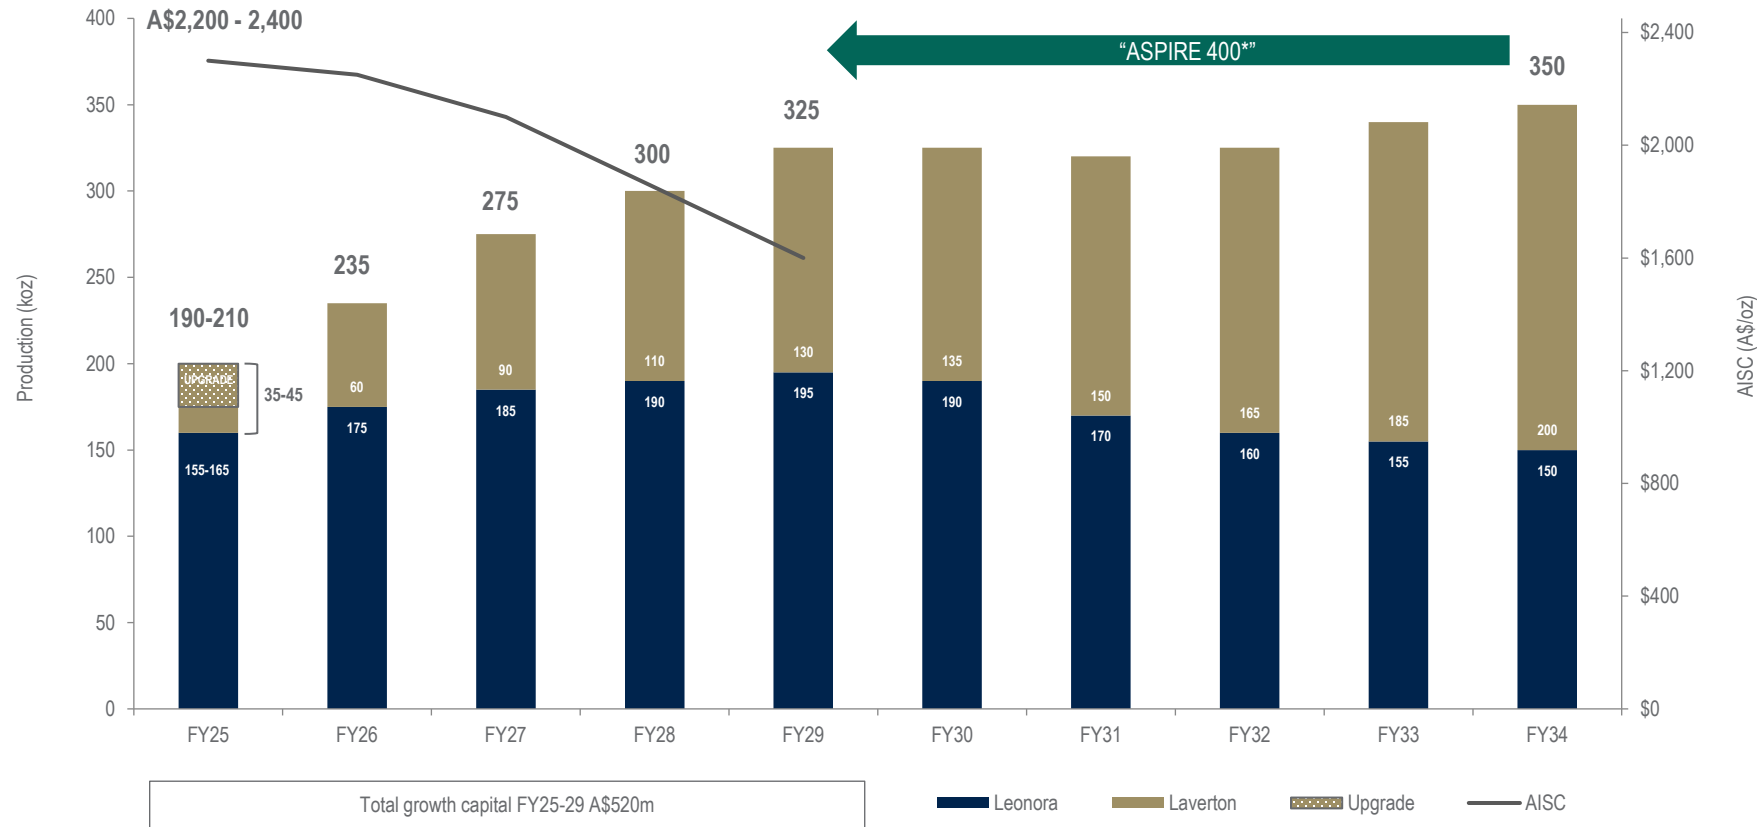

# FULLY FUNDED, BASE CASE 10-year plan

More ounces and less cost, year-on-year:

Group production and cost outlook<sup>1,2,3</sup>

- ▶ 3Moz production over 10 years
- ▶ High confidence - 91% in Reserves
- ▶ Declining AISC - As quantity / quality of ounces increases
- ▶ Declining AIC - As growth capital rolls off; FY25 anticipated to be peak year for investing in growth
- ▶ Assumes no further exploration success / M&A

- ASPIRE 400\*
- ▶ Long ore; Studies continue to bring ounces forward including:
    - Optimisation
    - Staged expansion
    - Earlier milling of stockpiles ~8Mt / ~280koz by FY29

**FY25 UPGRADED to 190 - 210koz at AISC A\$2,200 - 2,400/oz; Growth capital A\$125m**

1. Refer to GMD ASX announcement 21<sup>st</sup> March 2024 "Growth strategy underpinned by robust Reserves" for the material assumptions relating to the production target. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production target itself will be realised; 2. Refer to GMD ASX announcement 2<sup>nd</sup> September 2024 "Genesis increases FY25 production outlook" for FY25 production, AISC and growth capital outlook; 3. FY26-29 production at mid-point (within a range of +/-7.5%), AISC at mid-point (within a range of +/- A\$100/oz); \* Aspirational goal.

# Laverton - 5 year production outlook

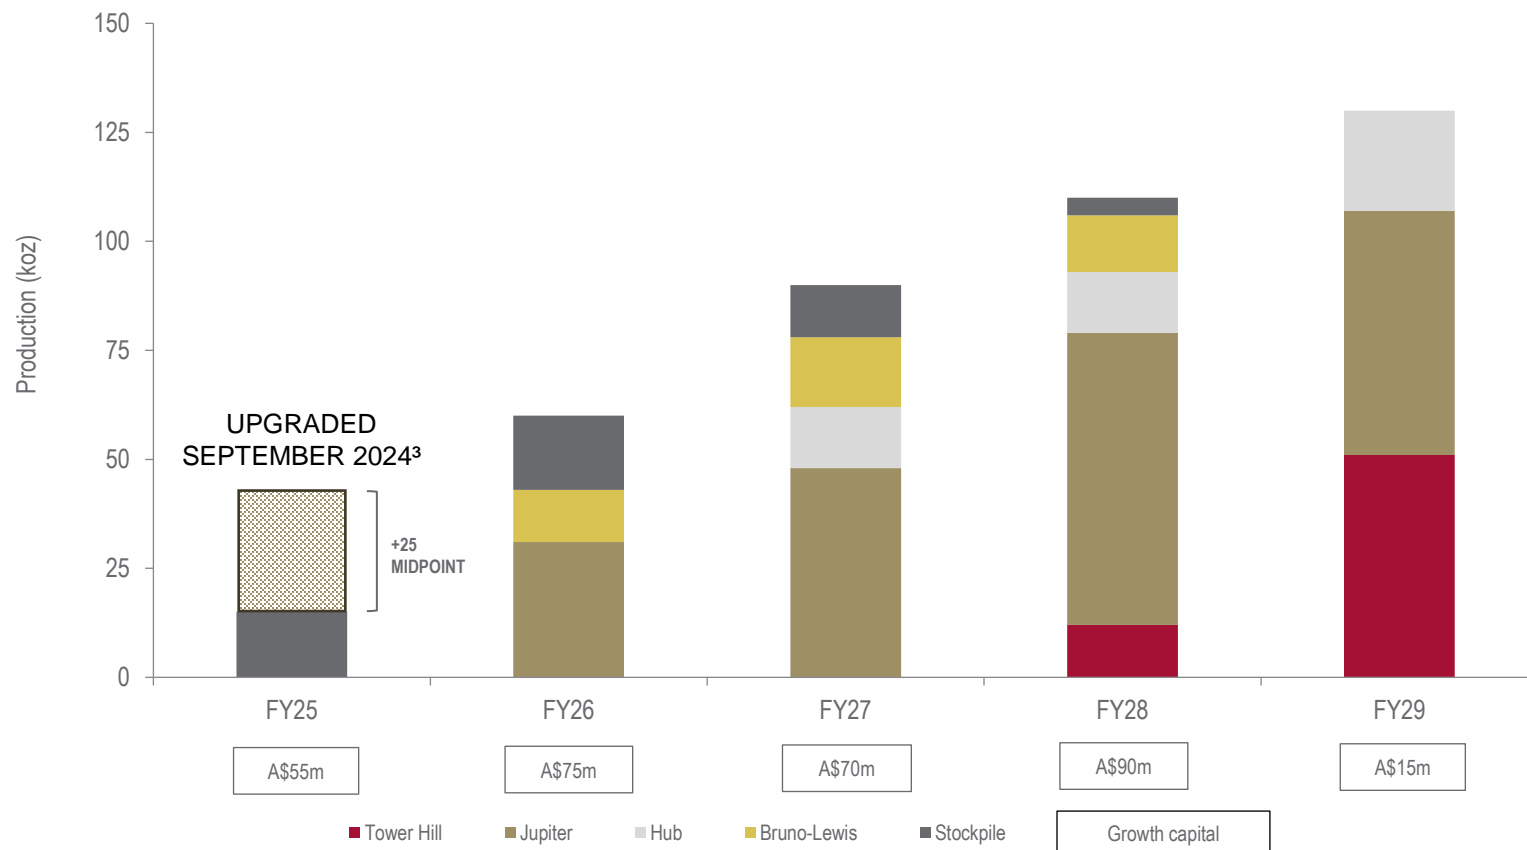

Growth to +300:

Laverton production outlook<sup>2</sup>:

As released in March 2024<sup>1</sup>

FY25 upgraded<sup>3</sup> following re-start of Laverton mill 6 months early

- Total Laverton production ~400koz over first 5 years
- Progressive ramp-up after mill re-start in late FY25, rising to 135koz in FY29
- High confidence level - 84% in Reserves
- 5-year group plan includes just 7% of total Tower Hill Reserves (16% of the Laverton 5-year outlook)
- Tower Hill ore supply to Laverton capped at ~2Mtpa due to haulage
- Growth capital includes Tower Hill

1. ASX announcement 21st March 2024 "Five-year Strategic Plan"; 2. GMD ASX announcement 21st March 2024 "Growth strategy underpinned by robust Reserves" for the material assumptions relating to the production target. There is a low level of geological confidence associated with inferred mineral resources and there is no certainty that further exploration work will result in the determination of indicated mineral resources or that the production target itself will be realized; 3. ASX announcement 2nd September 2024 "Genesis increases FY25 production outlook".

# Disciplined M&A, exemplary re-start at Laverton

## Counter-cyclical:

1. June 2022 - Dacian ceases mining at Laverton
2. July 2022 - Genesis takeover bid for Dacian

### DACIAN ACQUISITION METRICS:

Acquired assets included 3.0Mtpa mill and Jupiter open pit mine

Acquisition cost ~A\$140m<sup>1</sup>

~A\$56 / Resource oz

A\$172m of milling infrastructure (2016-2018)<sup>2</sup>

3. September 2022 - Genesis gains control of Dacian
4. March 2023 - Laverton mill placed on care and maintenance
5. June 2023 - Genesis acquires St Barbara's Leonora assets
6. January 2024 - Genesis acquires Kin's Bruno Lewis and Raeside
7. October 2024 - Laverton mill re-started 6 months early (September 2024 upgraded FY25 guidance in anticipation)

# Itinerary

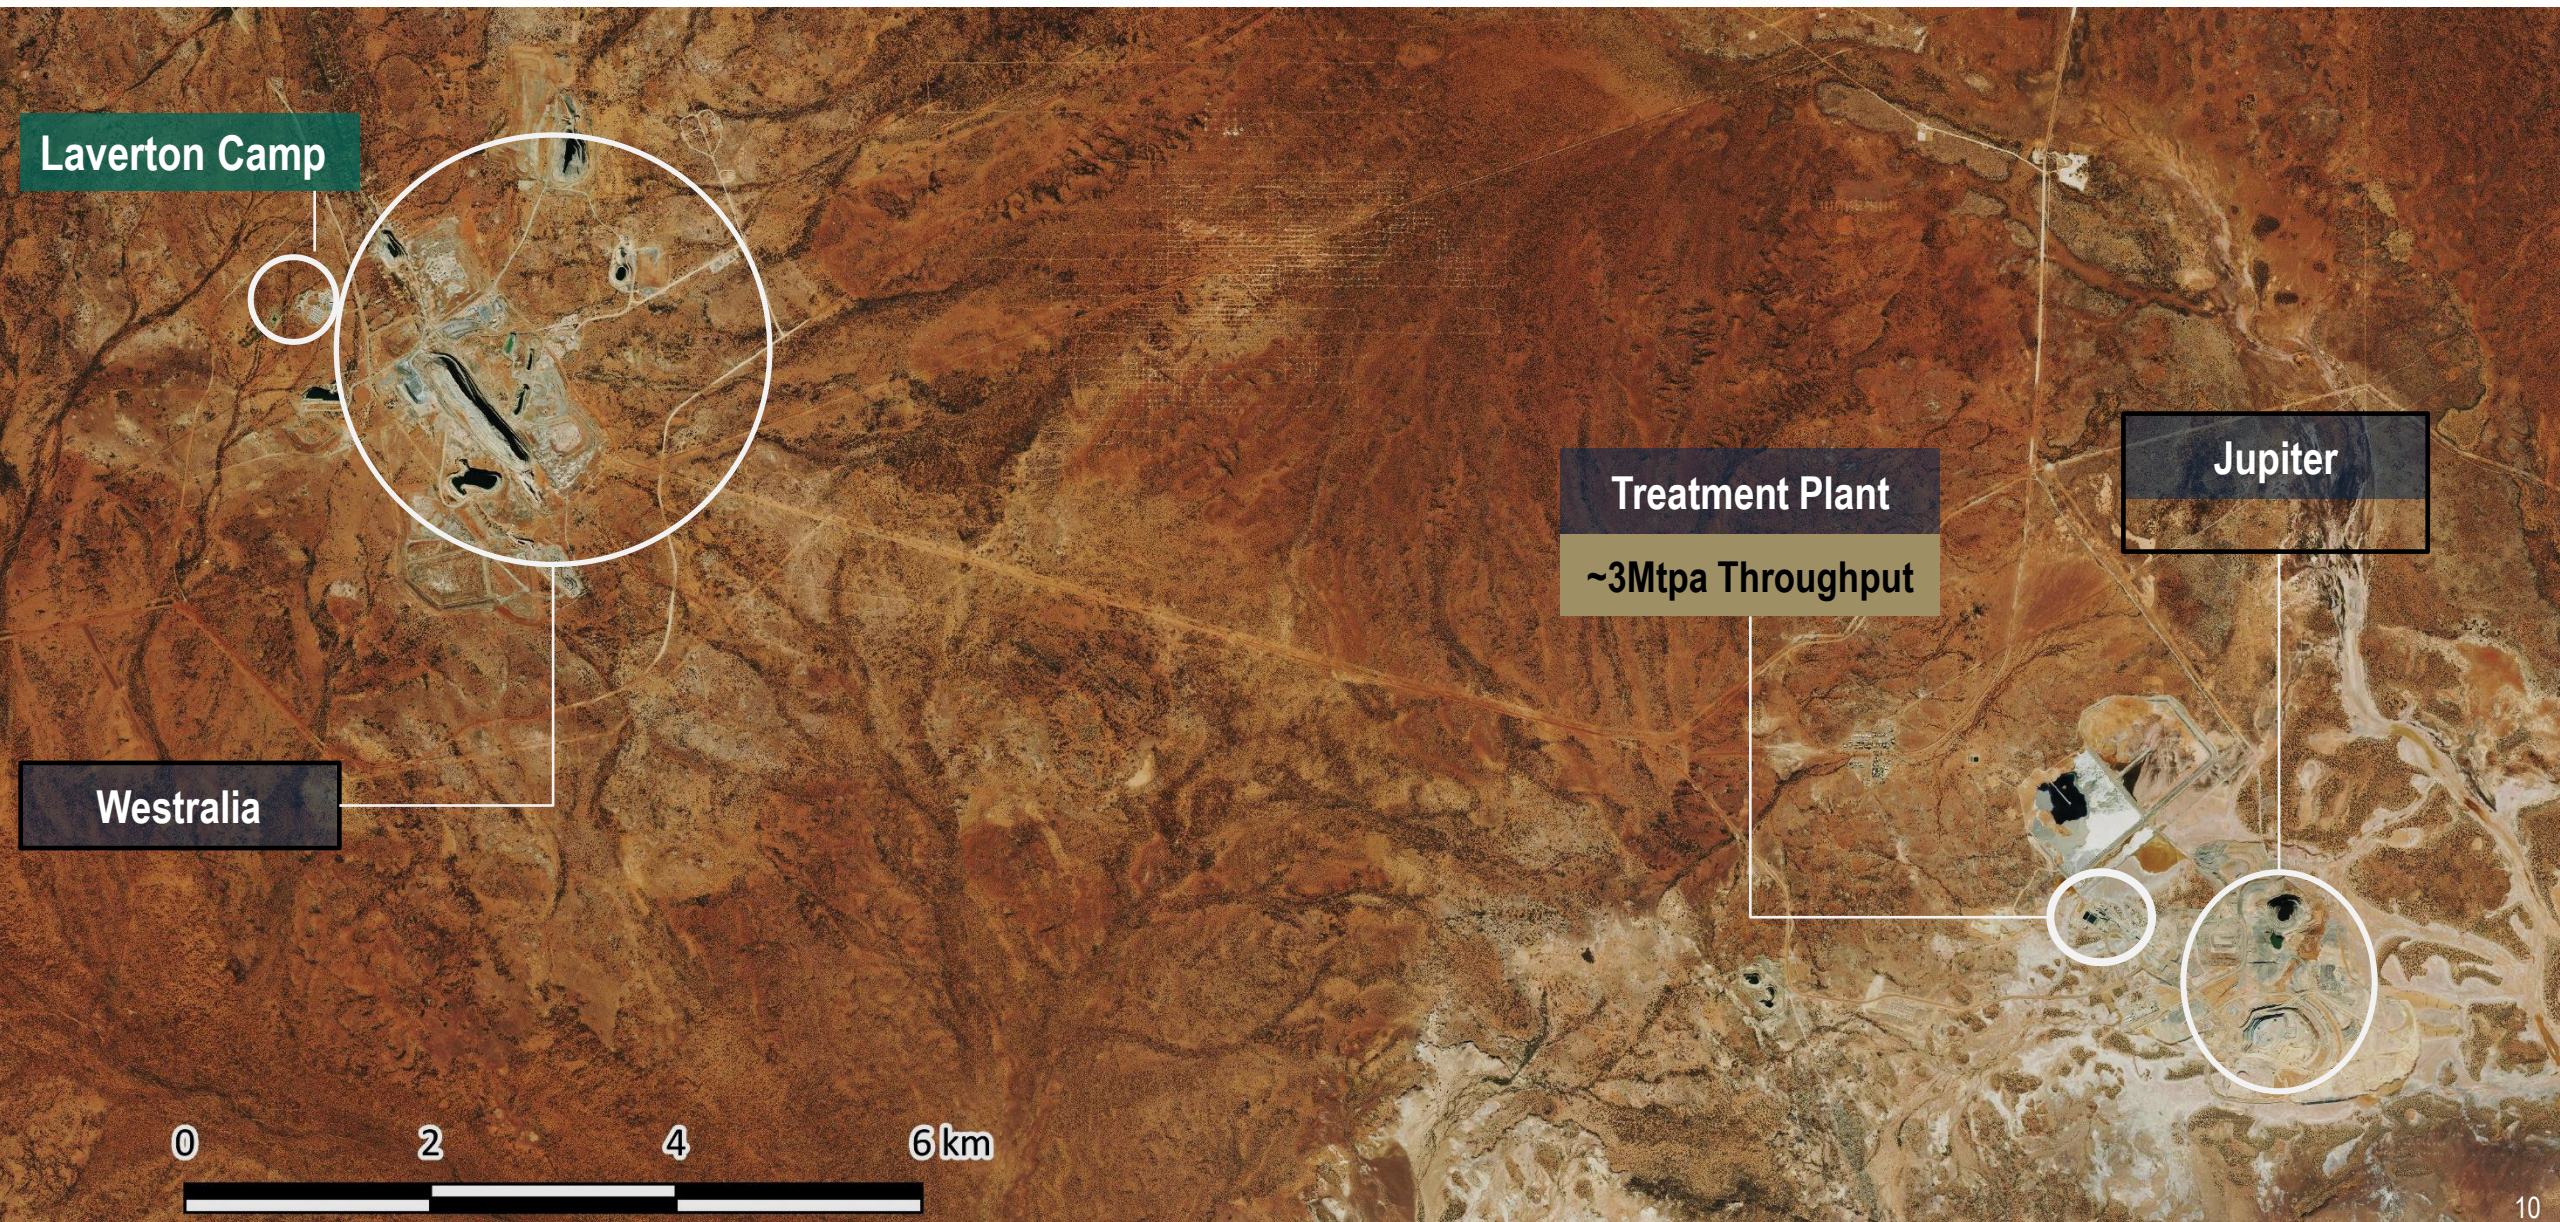

Thursday 6<sup>th</sup> March 2025:

Time	Activity
12.10	Flight arrives in Laverton
13.00	<b>Arrive at Laverton mine site</b>
13.15	Safety induction, presentation at mine office
14.15	Mine site tour including:
	- Processing plant
	- Site infrastructure
	- Jupiter project
	- Westralia project
16.45	<b>Arrive at Site Village</b>

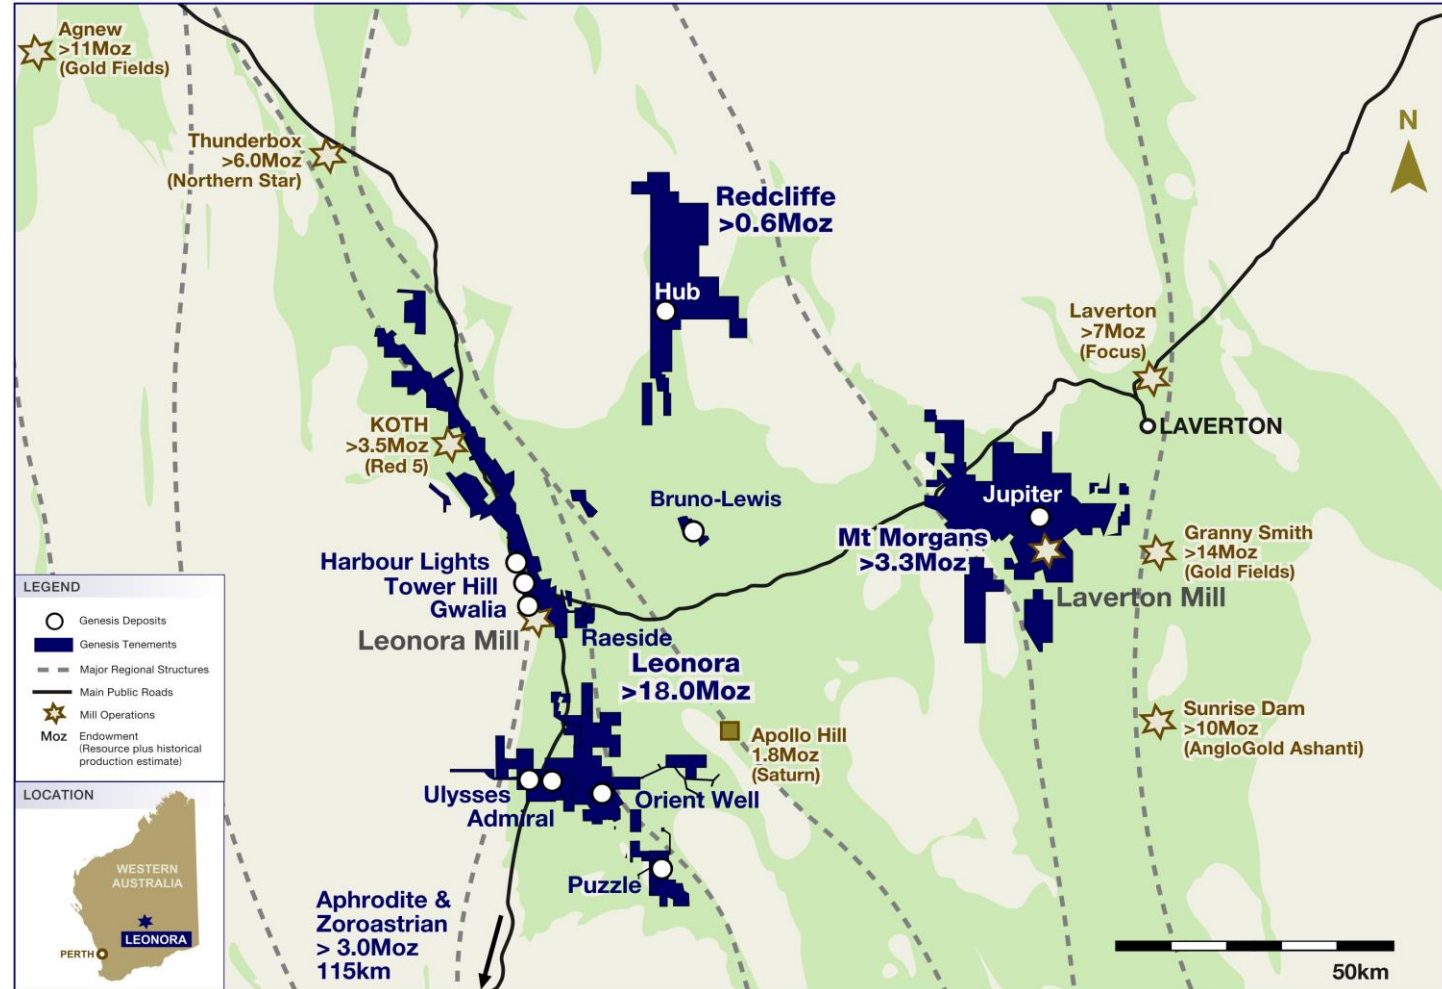

# Site Layout

# Laverton Introduction

- ▶ 3Mtpa CIL plant built in 2018, placed in care and maintenance April 2023
- ▶ 400-person accommodation village
- ▶ Jupiter and Westralia deposits within 15km of the plant
- ▶ Natural gas connection to site with contract 20MW gas power station
- ▶ Access to Laverton and Leonora town resources including aerodrome facilities

# Project TALO

Ready and willing to deliver “ASPIRE 400”:

**We mine safely** - Protecting our people, our environment, our communities

“One-stop shop” for career development

Remuneration aligned with shareholder returns

Strong focus on community engagement

Loyal, engaged and committed for the long term

**Thinking and acting like OWNERS**

*Target = 100% of employees own GMD shares*

- ▶ ~88% of Genesis employees are Genesis shareholders
- ▶ **Project TALO** - Initiatives from the shop floor; **oz in / cost out**
- ▶ **Future-proofing** margins / **discipline** through the gold price cycle
- ▶ **Working examples** of potential cost-outs at Laverton include:
  - Polaris ATV A\$30,000 per unit.
  - Standard pressure cleaning units A\$15,000 p.a.
  - Reagent suppliers A\$100,000 p.a.
  - TO BE CONTINUED....

# Laverton Mill Restart

- ▶ Re-commissioning commenced in June 2024 utilising key personnel from original operational team
- ▶ Currently treating mostly legacy stockpiles and ore hauled from the Leonora operations
- ▶ Restart delivered on budget (~A\$13m)
- ▶ **First gold produced in November 2024; Almost immediately ramped-up to nameplate capacity**

It's pouring gold at Laverton

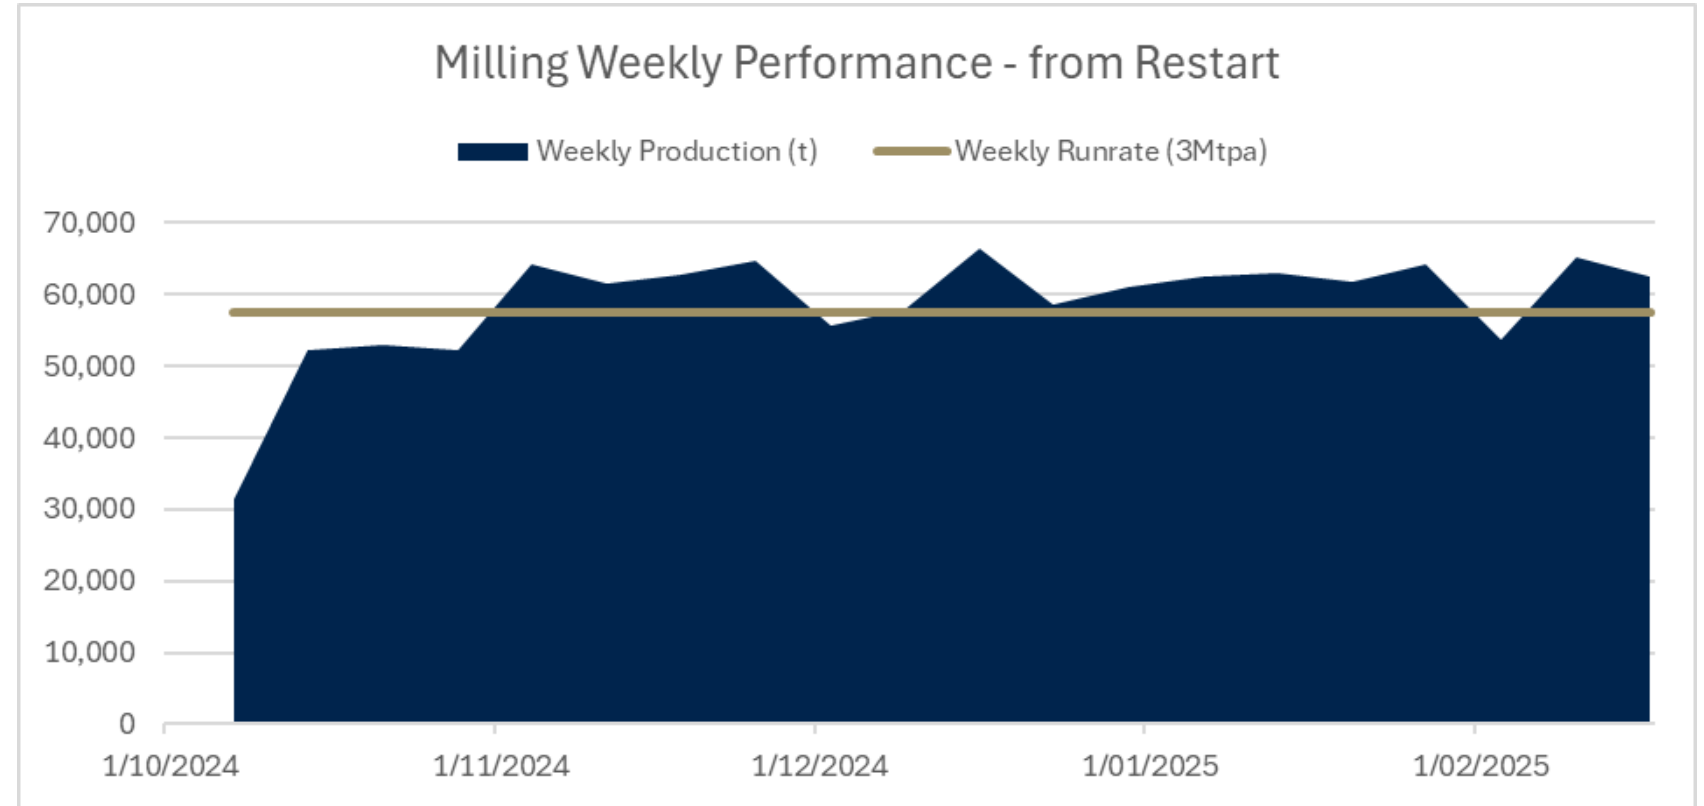

# Laverton Mill Performance

- ▶ Treating combination of legacy stockpile and Admiral ore
- ▶ Production rates achieved whilst maintaining discipline on operating costs
- ▶ Milling cost performance from restart better than FY25 Budget of ~A\$28/t

# Laverton Mill Opportunities

- ▶ 3.0Mtpa processing plant current design:
  - C140 Primary Jaw Crusher
  - 4.4MW SAG Mill & 4.4MW Ball Mill
  - 2 x QS40 Knelsons
  - 7 x CIL Tanks
  - 9t Elution Circuit
- ▶ Investigating optimisation and staged expansion opportunities, including:
  - Option 1: Additional ball mill and increased leaching capacity
  - Option 2: Crushing circuit upgrade and increased leaching capacity

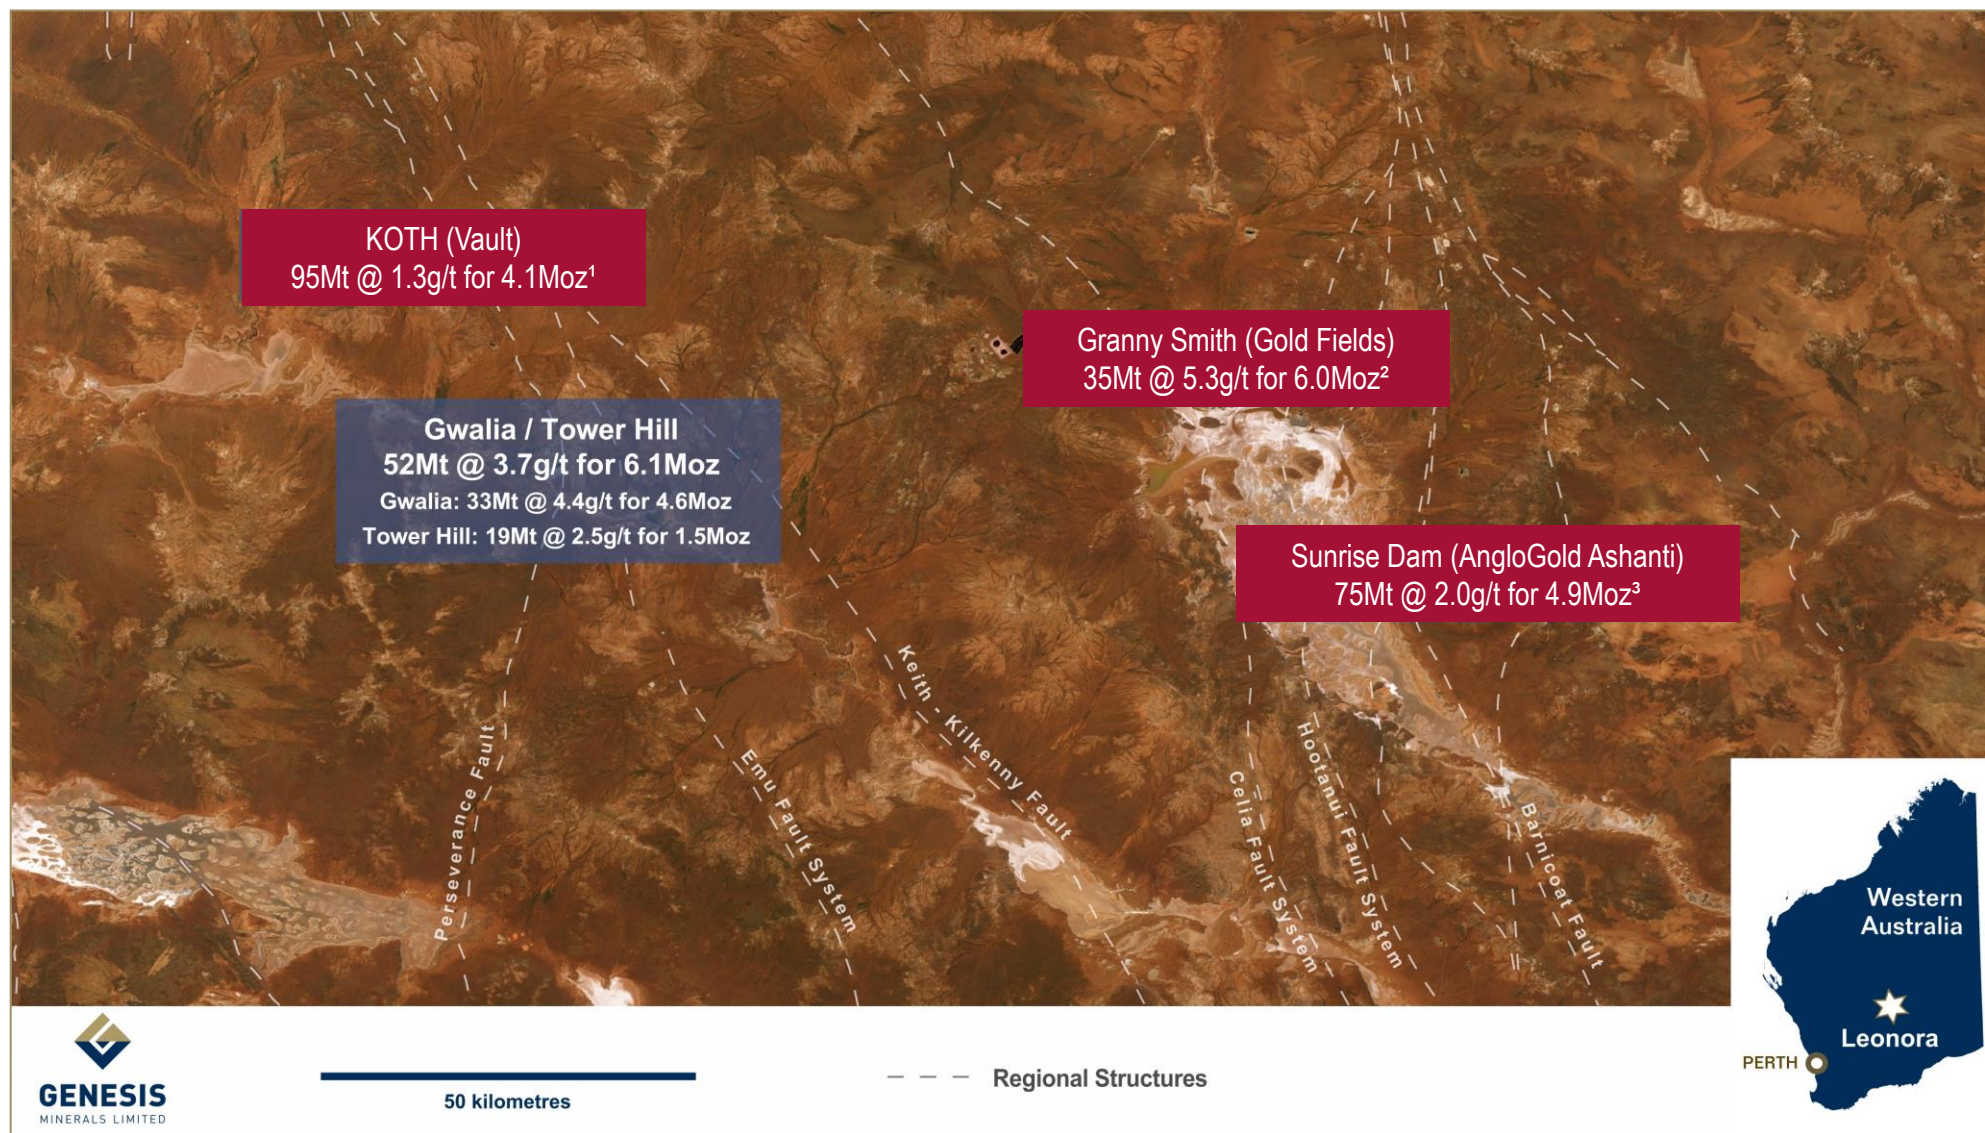

# Genesis has the gold

The BIG FOUR, none bigger than Gwalia / Tower Hill >6Moz Resources:

1. Vault ASX announcement 22<sup>nd</sup> October 2024 "Resource and Reserve Statement"; 2. Gold Fields NYSE / JSE "Mineral Resources and Mineral Reserves Supplement to the Integrated Annual Report 2023"; 3. AngloGold Ashanti NYSE / JSE "Mineral Resource and Mineral Reserve Report as at 31 December 2023". Mineral Resources are inclusive of Ore Reserves.

# Regional Geology

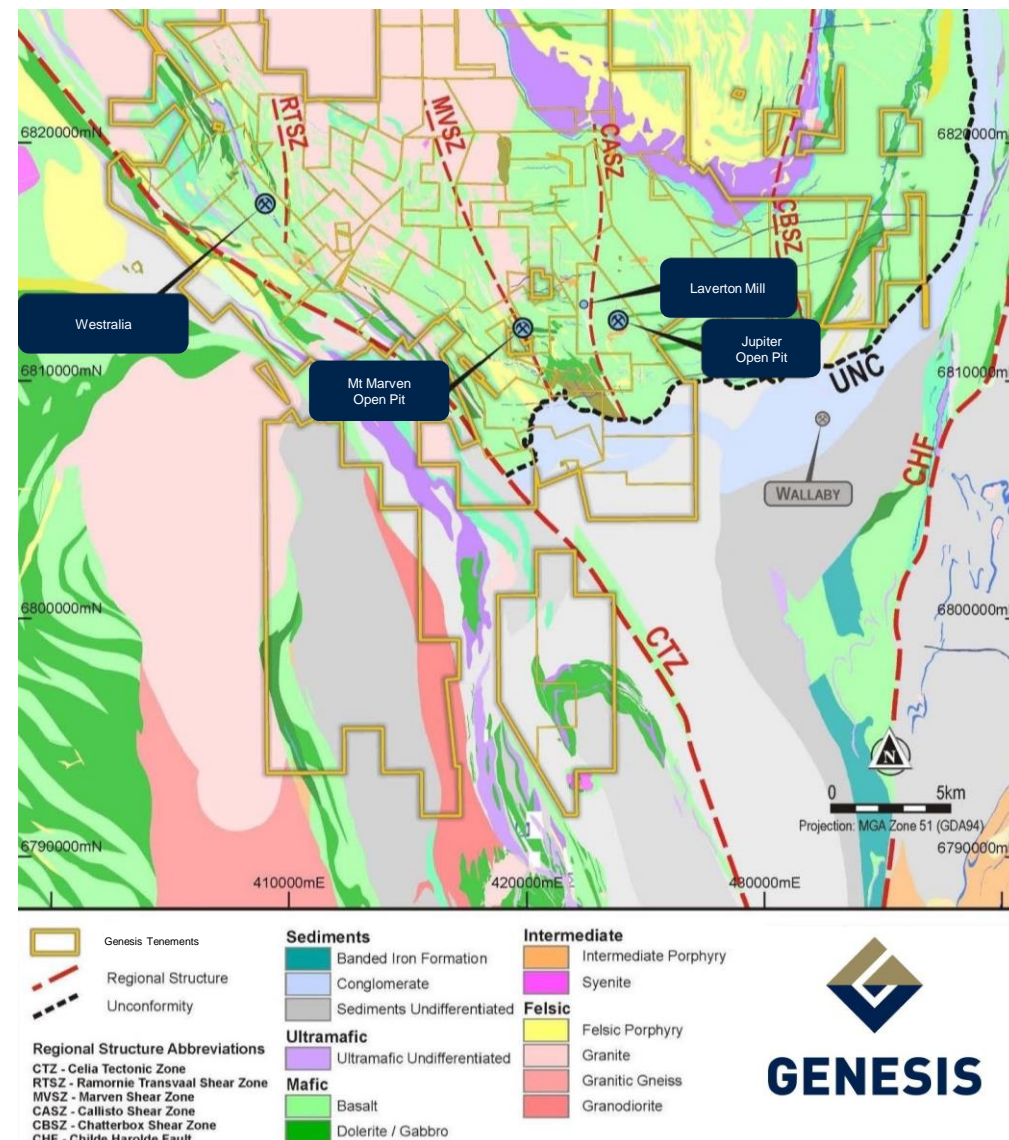

Multiple large deposits with world class neighbours:

► **Situated between the Celia Tectonic Zone and Childe Harold Fault:**

- Minor structures are prevalent across the tenure and act as conduits for deposition of mineralisation
- Significant strike of prospective tenure outside of known deposits

► **Exploration now has time to uncover potential:**

- Stable mill feed supply allows time to progress opportunities systematically by doing the best for the resource without operational pressure
- Staged approach of de-risking the discovered ounces then stepping out to search for more

# Jupiter - Reliable baseload on the doorstep of the Laverton mill

Infrastructure in place, low capital start up:

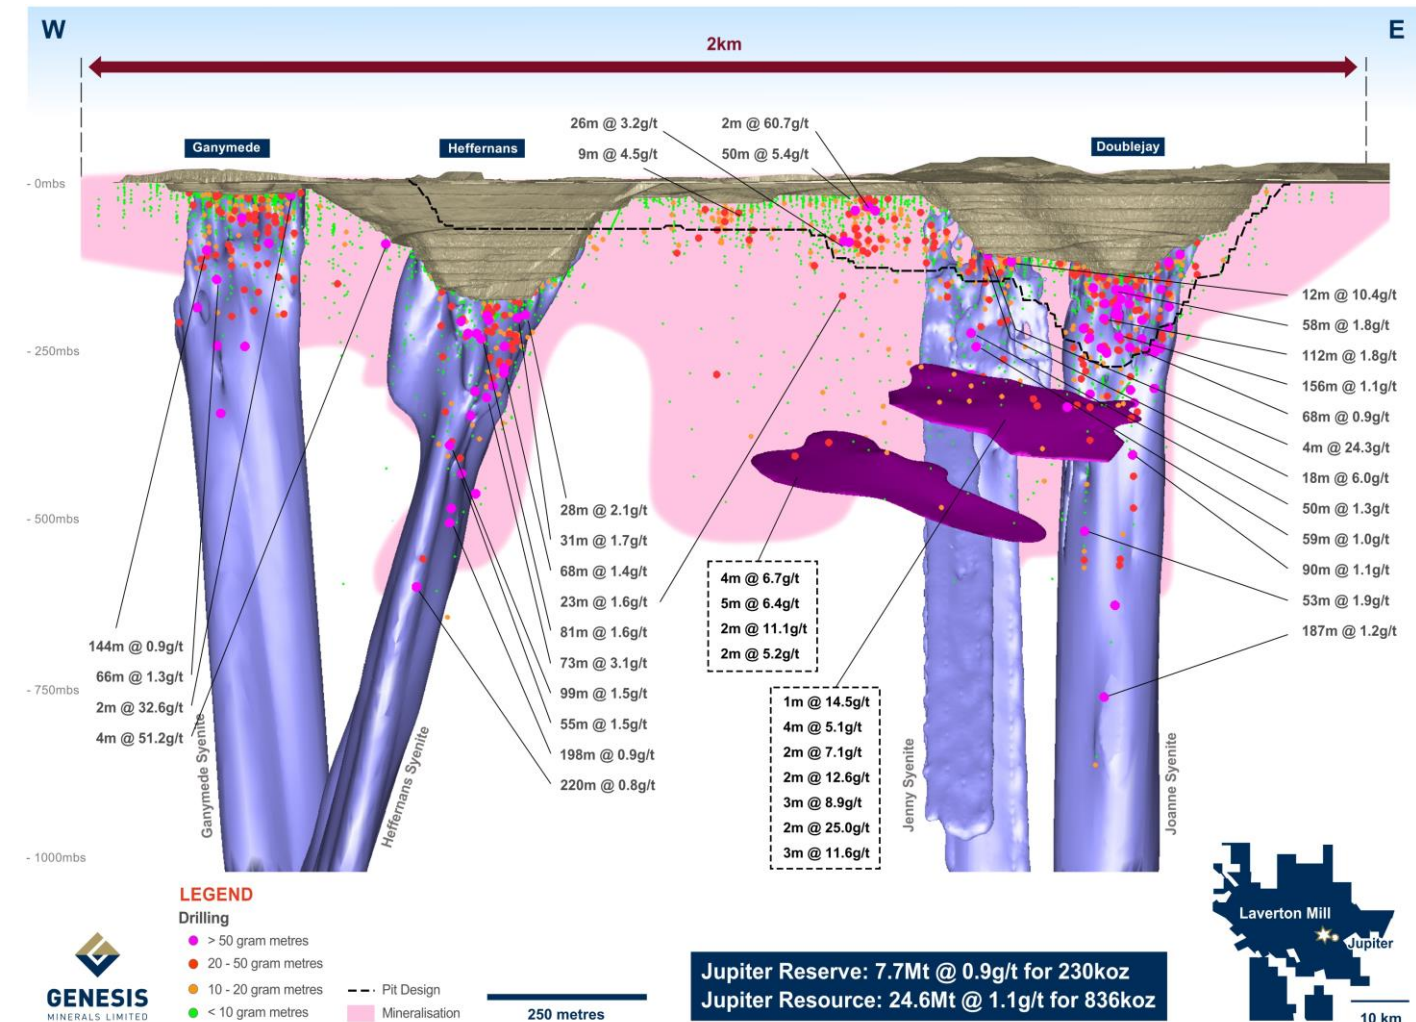

► **Near-term mill feed**, margins boosted by:

- Application of lower cost GMS mining fleet
- Drilling success

► **Sweeteners - Two high grade parallel flat dipping lenses close to base of the pit;**  
Plethora of high-grade drill results including:

- 2m @ 25.0g/t
- 3m @ 11.6g/t
- 5m @ 6.4g/t
- Underground opportunity...

Jupiter long section

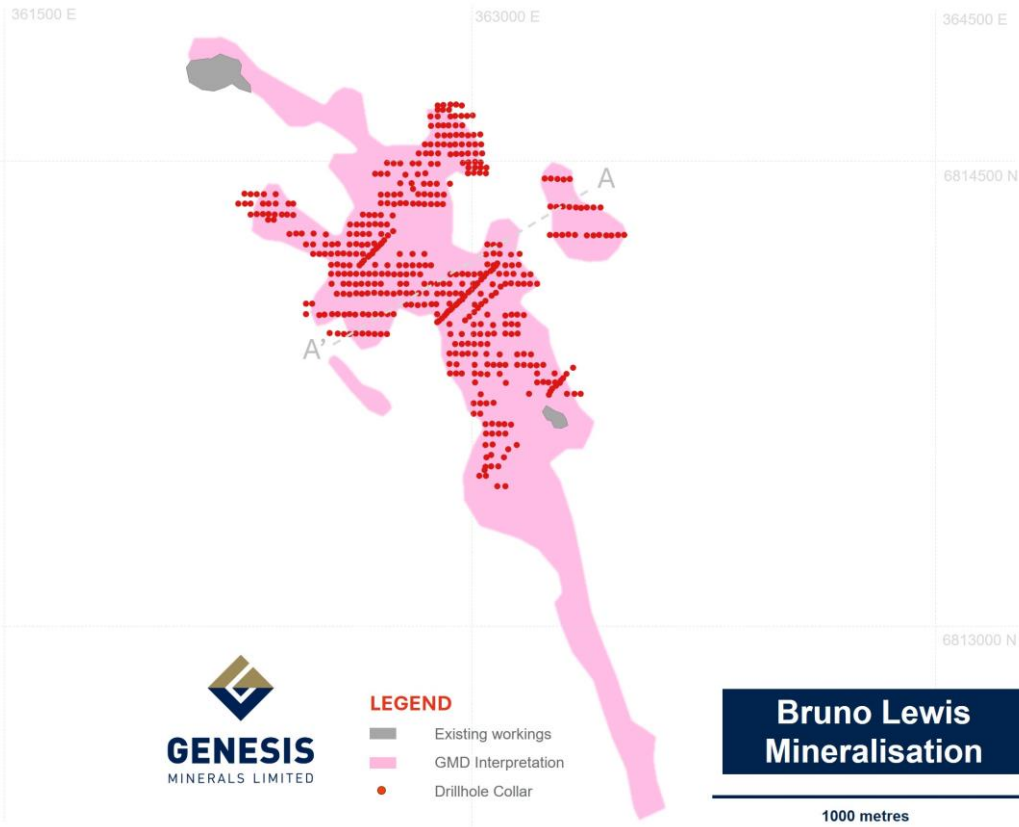

# Bruno-Lewis - Large Shallow System

Recent acquisition de-risked via Genesis drilling:

- ▶ Large strike of mineralisation with significant supergene footprint
- ▶ Deep weathering profile with minimal overburden

## Plan view of the large Bruno-Lewis system

## Cross section – Shallow oxide mineralisation

- ▶ GMD interpretation has shown primary controls on mineralisation are NW striking with multiple structures present.
- ▶ Significant opportunity to test the system at depth
- ▶ Drilling program recently completed with updated resource planned for April

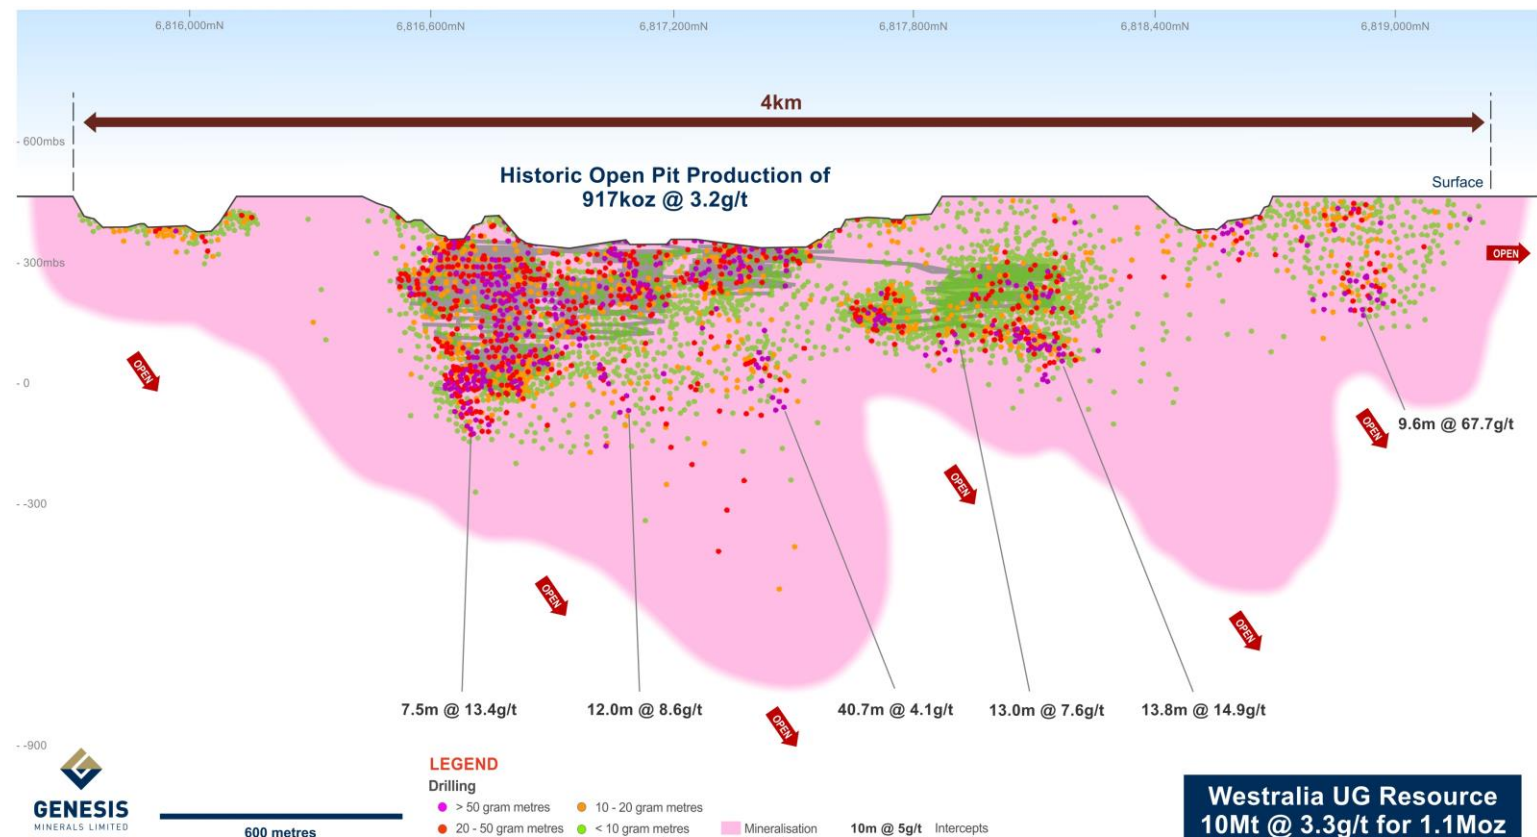

# Making Westralia great again

Re-evaluating Westralia as a bulk open pit mining opportunity:

- ▶ Significant **+1Moz deposit** just **15km from Laverton mill**
- ▶ **Continuously mineralised for more than 4km**; Open to the north and at depth

Long section - Multiple high grade ore shoots plunging to the south

Cross section - GMD bulk interpretation v previous

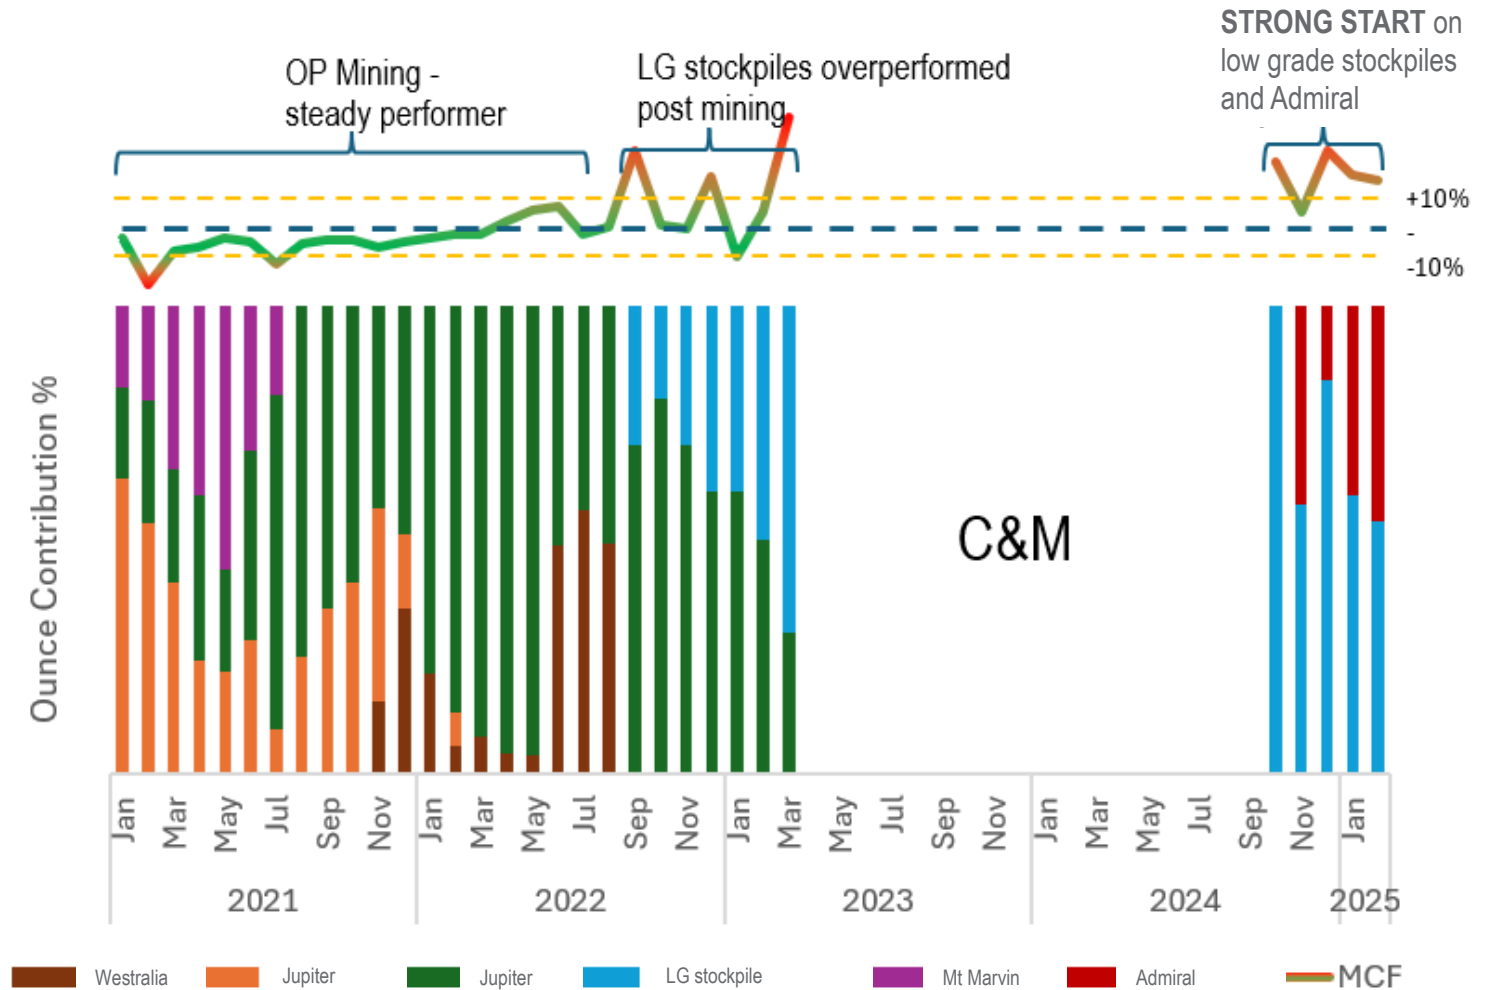

# Laverton Mill - Strong start

Reliable performer from open pit mine to mill:

- **Average mill reconciliation 102%** last 24 months of operation under previous owner<sup>1</sup>
- Uptick in reconciliation during the low grade stockpile processing phase following mining
- **Strong start coming out of care and maintenance...**
- ...positive reconciliation from Admiral and stockpile

1. Refer Dacian ASX announcement 3rd April 2023 "Mt Morgans Operation Suspended".

# Jupiter - Reinvigorated

## Reliable baseload:

- ▶ **DoubleJay cut back (DBJ14)** ramps to the south through the saddle, gaining depth and allowing the pit to pull down and **capture additional ounces** v closing 2023 Reserve
  - = **Reliable base load feed for the adjacent Laverton mill**
- ▶ Hitachi EX2600 primary excavator, EX2000 Support and 8x HD1500 trucks
- ▶ Oxide pits **Ganymede** and **Mt Marven** will be **staggered** to smooth ore delivery and **ensure consistent blending material** to the processing plant

# Jupiter - Just say go

Infrastructure in place, low capital start up:

- ▶ **Fleet ordered and confirmed** ✓
- ▶ **Approvals in place** ✓
- ▶ **Key commercial contracts extended / advancing well** ✓
- ▶ **Labour ramp up schedule ready** - Offers out for Open Pit Managers and other key roles in advanced stage ✓
- ▶ **Long lead infrastructure already in place** - Offices, workshops, magazines, dewatering and roads ✓

Mining under previous owner in DoubleJay pit

Laverton mill from crushed ore stockpile

# Making Westralia great again

Open pit Resource anticipated April 2025:

## Genesis:

- ▶ Mineralisation interpreted as a bulk package Opportunity
- ▶ Open pit mining method Opportunity
- ▶ Low-cost Genesis Mining Services Opportunity
- ▶ Cut-off grade ~0.5g/t Opportunity
- ▶ Mill reconciliation - Low margin of error Opportunity
- ▶ Spot gold price more than A\$4,600/oz Opportunity
- ▶ Close-spaced drilling planned Opportunity

## Previous:

- ▶ *Mineralisation interpreted selectively* ✗
- ▶ *Underground mining method* ✗
- ▶ *External contractor* ✗
- ▶ *Cut-off grade 2.0g/t* ✗
- ▶ *Mill reconciliation - High margin of error* ✗
- ▶ *Gold price less than ~A\$2,600/oz* ✗
- ▶ *Underground mining ceased September 2022* ✗

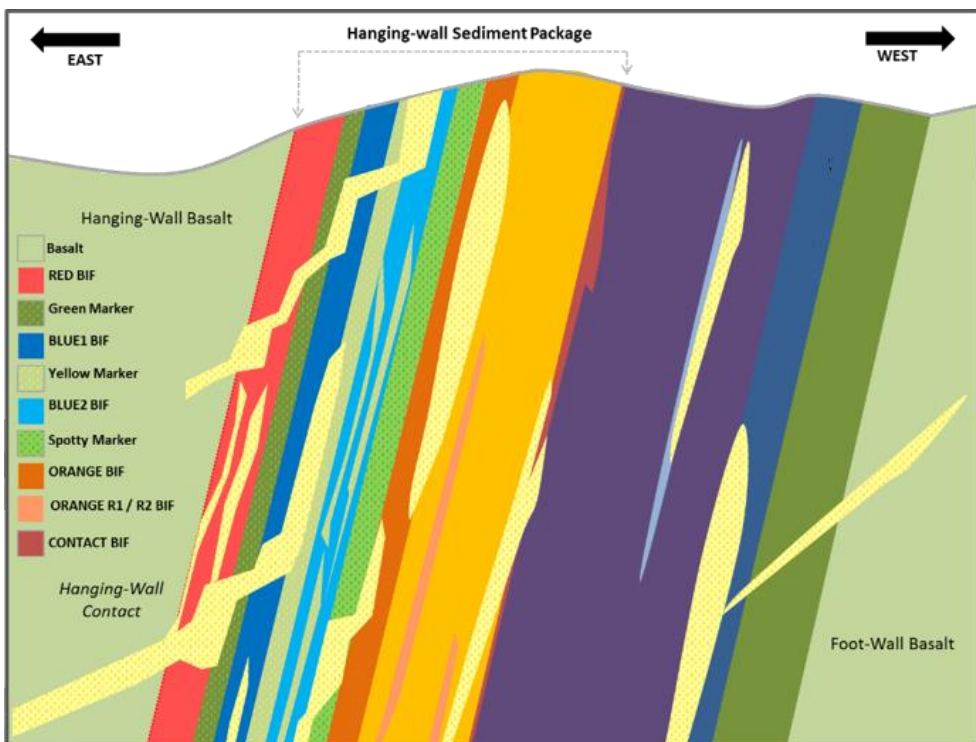

**GMD's open pit strategy supported by historical success - Open pit mining delivered production of 917koz at an average grade of 3.2g/t from 1988<sup>1</sup>**

# Westralia – Right-Sized mining approach

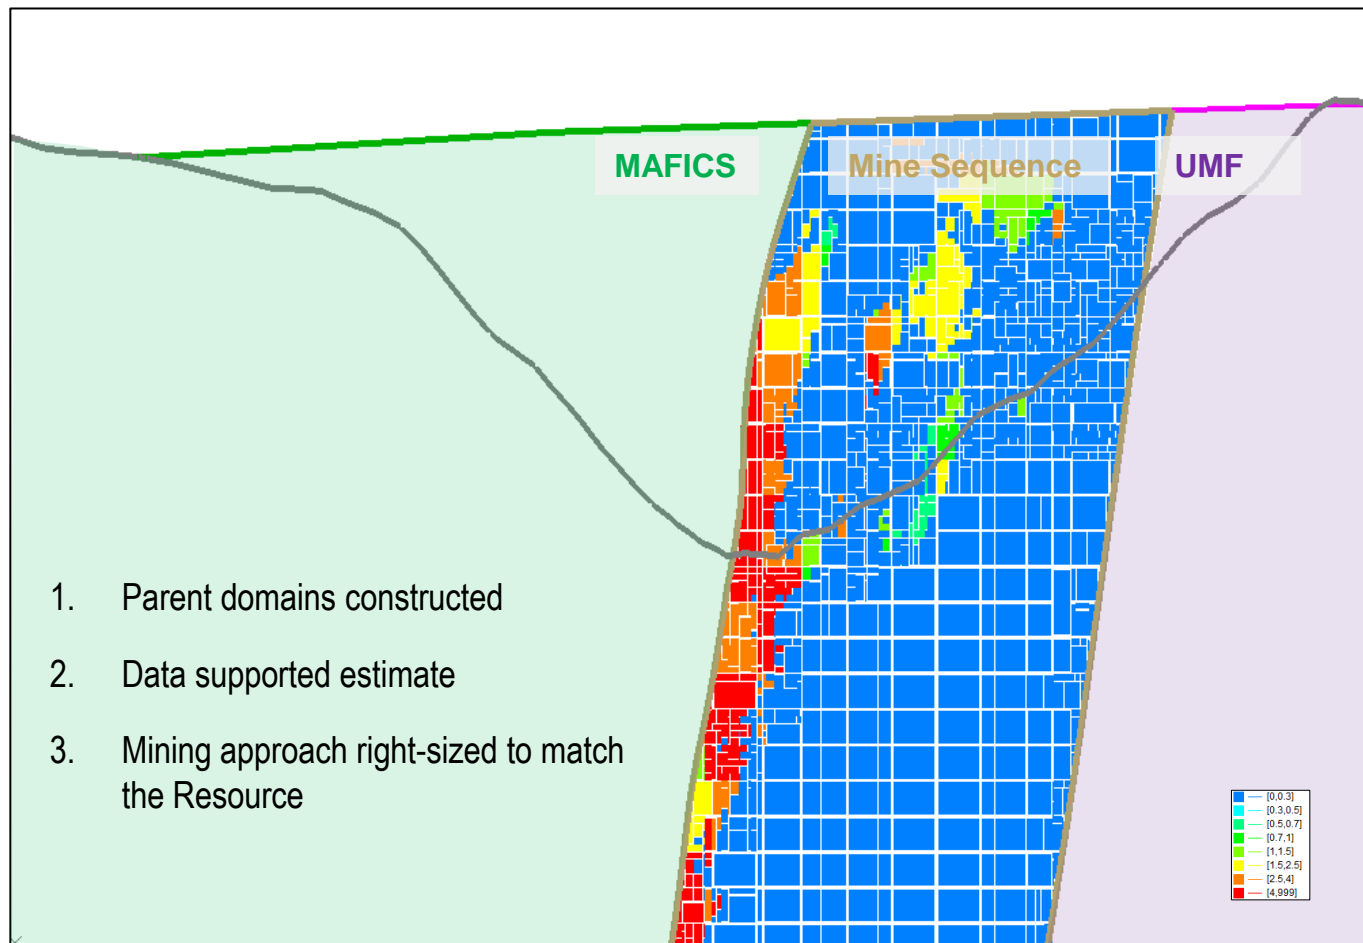

## Previous approach - Discrete modelling

High selectivity chasing a target grade profile

## Genesis Approach - Parent Domains defined

Data supported (not interp driven estimate).

1. Parent domains constructed
2. Data supported estimate
3. Mining approach right-sized to match the Resource

- ▶ We are an **aspirational Australian gold house, 100% focused on Leonora / Laverton**
- ▶ We have the **people, assets and balance sheet to deliver “ASPIRE 400”**
  - **Sustainable, high-quality production and earnings growth**
- ▶ We play the **“long game”**:
  - **Long ore**; Studies continue to bring ounces forward
  - **Strategic management team**
  - **Future-proofing** through the gold price cycle
- ▶ We are positioned to **“fill the gap” between the ASX 100 gold producers and the rest**

# APPENDICES

# APPENDIX A - Plan on a page ASPIRE

## VISION AND VALUES

**“The trusted Australian gold miner - Progressive, high quality, +400koz pa\*”**

Fill the vacuum with premium “Aussie-leader” characteristics

Our **Core Values** drive our culture and leadership - **“ASPIRE”**

**A**ccountable  
**S**ustainable  
**P**eople First  
**I**ntegrity  
**R**esults  
**E**mpower

**DELIVER SUPERIOR TSR**

## PEOPLE FIRST

**We mine safely** - Protecting our people, our environment, our communities

“One-stop shop” for career development

Remuneration aligned with shareholder returns

Strong focus on community engagement

Loyal, engaged and committed for the long term

Thinking and acting like OWNERS

*Target = 100% of employees own GMD shares*

## PRODUCTION GROWTH

Relentless focus on operational execution and delivery

Industry-leading, profitable production growth

*Year-on-year Leonora  
+ Laverton to 300koz pa  
+ Tower Hill... “ASPIRE 400”*

Assets and people in place

Sustainable:

*+300koz for +10 years on Reserves; Exploration*

## LOWER COSTS

Declining all-in sustaining costs

*Increasing production alleviates industry cost pressures*

Declining all-in-costs

*As growth targets are achieved and growth capital rolls-off*

Structural cost improvement from high grade Tower Hill open pit development

“Future-proofing” - Making margins more resilient to price cycles

## M&A

Discipline first - Track record of sensible accretive M&A

*Strategy, process, team / capabilities, quality, value per share*

Key tenet is to up-tier the portfolio

*Constantly ranking assets we own v assets we don't own*

Regional synergies with “home ground advantage”

*“Bolt-on” opportunities - Leverage existing infrastructure and improve life-of-mine plans*

Divestment of non-core assets

# APPENDIX B - Resources and Reserves\*

## 2024 Mineral Resource estimate

Deposit	Measured			Indicated			Inferred			Total		
	Tonnes (000s)	Grade (g/t Au)	Ounces (000s)	Tonnes (000s)	Grade (g/t Au)	Ounces (000s)	Tonnes (000s)	Grade (g/t Au)	Ounces (000s)	Tonnes (000s)	Grade (g/t Au)	Ounces (000s)
