# RESULTS HY 2022

# Highlights HY22

# NOVANT HEALTH

- \$40M – 7-year contract
- Equal biggest deal to date
- Cloud based implementation
- Visage to replace multiple legacy PACS systems
- Visage to deploy Visage 7 Workflow and Visage 7 Viewer
- Extends PME's rapidly growing footprint in IDN Market
- Transaction-based model with potential upside

# GERMAN GOVERNMENT CONTRACT

- 4<sup>th</sup> extension of original contract signed in 2015
- \$1.3M one-off capital license (net of hardware)
- Annual support contract to be in addition
- Increases PME footprint in Europe

# ALLEGHENY HEALTH - Renewal

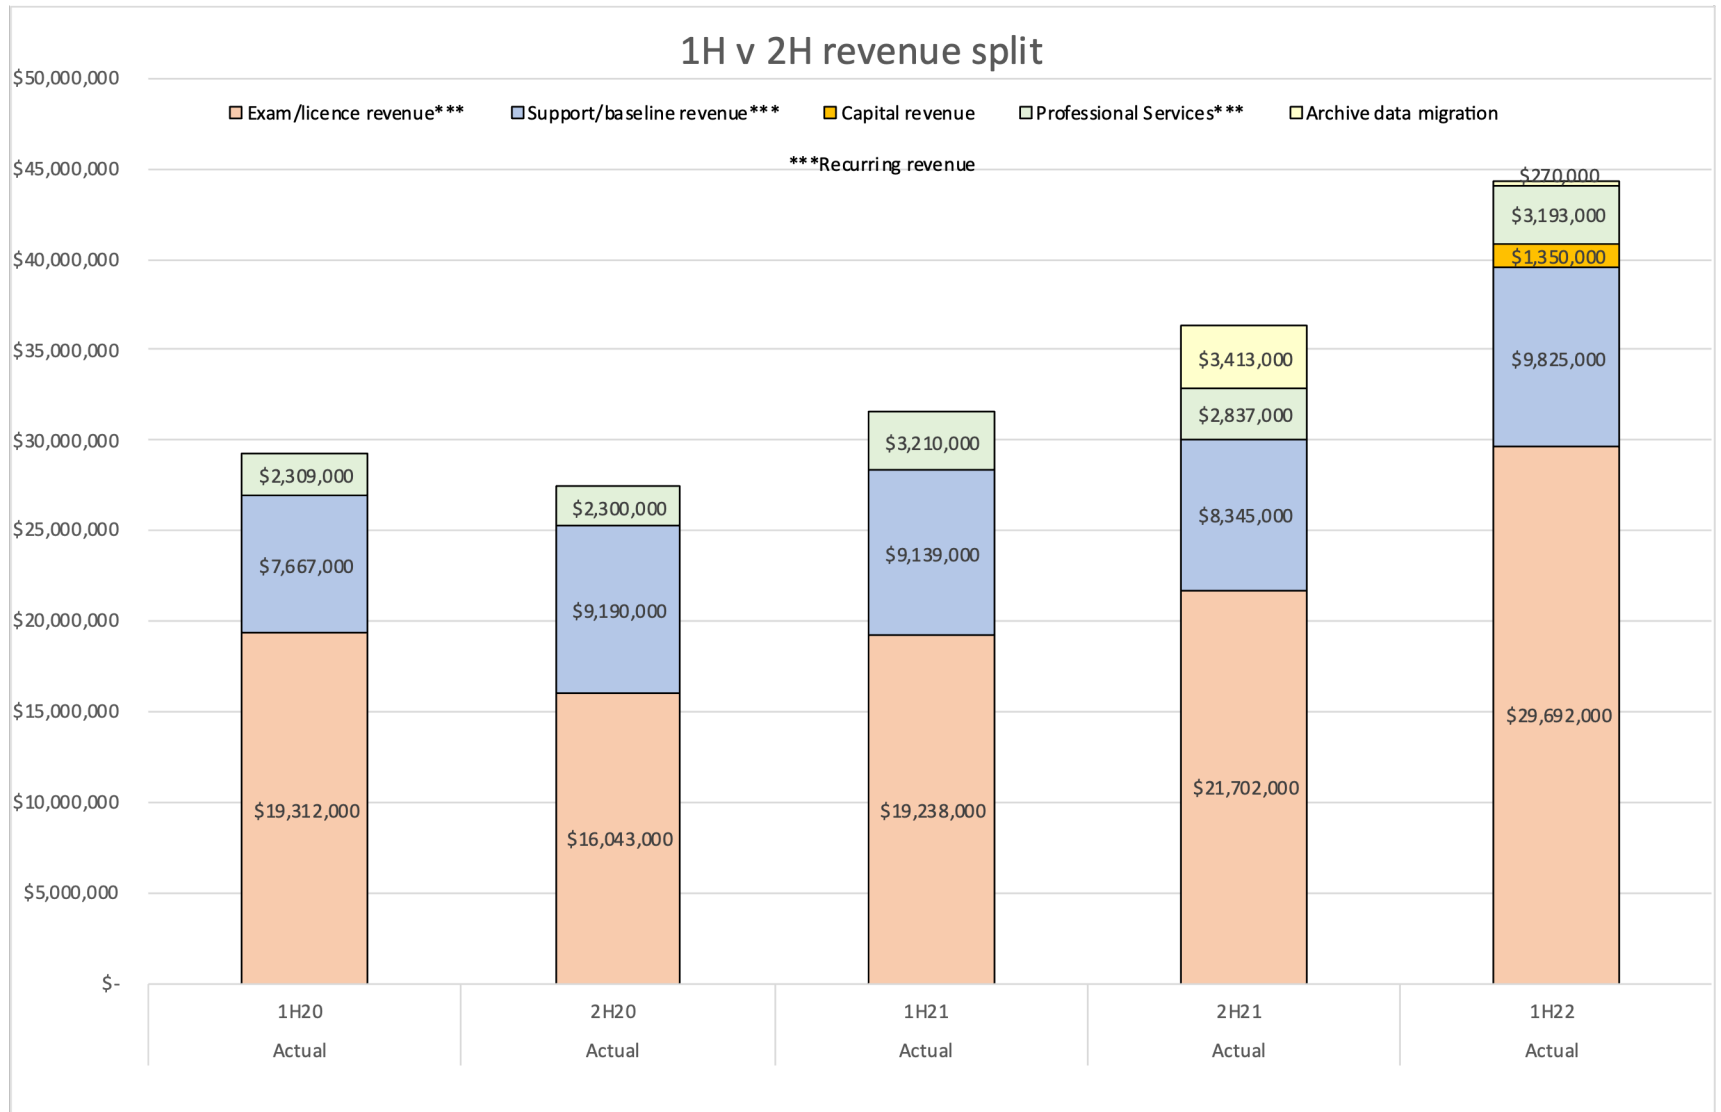

- 5-year renewal – same term as original contract
- \$12M over 5 years at minimums
- Increased cost per transaction
- Upside as AHN grows
- Confirms confidence in Visage offering

Allegheny  
Health Network

# HY 2022 REVENUE SPLIT

# OPERATONAL (TRANSACTION) MODEL

- Used in vast majority of US contracts
- Delivered as SaaS model
- Now used in RIS contracts in AUS
- Model based on transaction minimums
- Forward revenue > A\$382M/5 years\*
- Upside as client examination volumes grow
- Annuity style revenue stream – greater predictability

\* Assumes key contracts up for renewal are renewed

# EXAM (TRANSACTION) REVENUE

- Recurring in nature
- Increased by ~ 37% PoP
- Growth to continue for FY 2022 (Intermountain, UCSF & others)
- New sites coming online in 2<sup>nd</sup> Half FY22 (UC Irvine, UCSD & UVM)
- Growth from existing clients (organic and M&A) plus new clients
- Further upside with adoption of new products (Visage 7 Open Archive and Visage 7 Workflow)

University of California  
UCSF

University of California  
Irvine & UCSD

THE  
University of Vermont  
MEDICAL CENTER

pro+medicus  
OUR SUPPORT. YOUR SUCCESS.

VISAGE IMAGING<sup>®</sup>

# PROFESSIONAL SERVICES

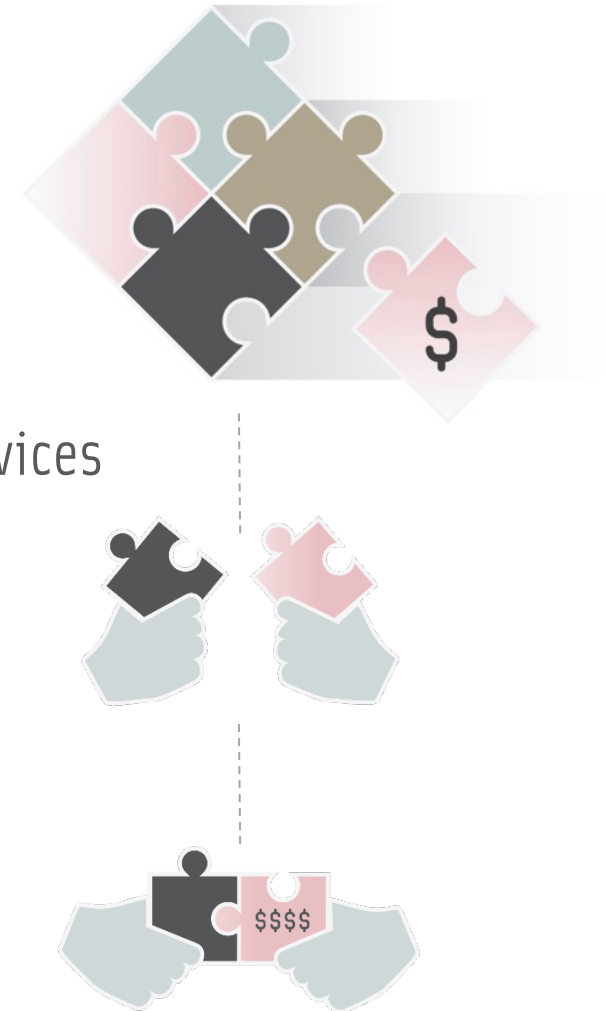

- Project planning, training & implementation \_\_\_\_\_
- Revenue spread over the length of the contract \_\_\_\_\_  
- new accounting standards (AASB 15)
- Recurring in nature ~ 10% contract value \_\_\_\_\_
- Data migration as part of Visage 7 Open Archive sale – once off \_\_\_\_\_

# OPERATING LEVERAGE

- Highly scalable offering
- No capex (HW) – SW only model
- Training & Installation – charged as professional services
- Contained cost base
- High operating leverage
- Margin continues to grow as footprint increases

# COVID-19

- PME/Visage still largely WFH
- Operating at 100% capacity
- Sales and marketing efforts continued throughout
- "Thinness" of the technology enabled large scale remote demonstrations
- New opportunities despite COVID restrictions
- Visage 7 - enables radiologists to seamlessly work from home
- North American exam volumes back at or above pre COVID levels

# VISAGE RIS

# VISAGE RIS

- Long term (5 year) contracts with Primary Healthcare and I-MED, the 2 biggest radiology providers in AUS
- HIS (Healix) rollout now complete
- Upside via organic and M&A growth
- Increased market interest – new opportunities
- PME undisputed market leader

# VISAGE 7

Continues to be #1 in Speed, Functionality and Scalability

**SPEED**

**FUNCTIONALITY**

**SCALABILITY**

# MASSIVE DATA EXPLOSION

- High density Multi-slice CT - 10,000+ images
- HD Breast Tomosynthesis - 6 GB+
- Optoacoustic Breast Ultrasound - 10+ GB
- Total Body PET Scan - 10+ GB
- 7T MRI - much larger than 3T

# LEGACY TECHNOLOGY

"Compress and Send"

# SOLUTION

## VISAGE 7 Streaming Technology

# FAST TRACK IMPLEMENTATION

- All implementations on or ahead of schedule
- Fast track methodology continues to deliver
- Large scale projects completed in under 1/4 the time of industry norm
- Delivers huge savings for client
- Frees PME staff for other jobs
- Reduces barrier to change
- New highly optimized hybrid model (onsite + remote)
- A key differentiator of Visage offering

# VISAGE – PROVEN ROI

Significant IT & Infrastructure Savings

Unparalleled Increase in Radiologist Efficiency

Greater Clinical Accuracy

Improved Physician Engagement

Delivers Superior Value Proposition

# Clinical Outcomes

Moving the Needle

Replying to @KhuranaBharti and @ASER\_ERad  
On some PACS (eg @Visage\_Imaging), making a curved reformat of ureteral stents takes just a few seconds.

**Daniel Ortiz, MD** @danortizmd · Aug 12  
Replying to @KhuranaBharti and @ASER\_ERad  
Great tip! I always confirm no stones on coronals on all my cts because can be easy to blow by 1-2 mm stones on axials.

**Visage Imaging** @Visage\_Imaging · Aug 13

Thank you @ericwpepin! @KhuranaBharti and @BrighamRad @MassGenBrigham use #Visage7 and can quickly & easily create CPRs. Ex. Curved Planar Reformat (CPR) generated on-the-fly for better visualization of Rt. Urethra Obstruction @ASER\_ERad

## Doctors, spurred by the pandemic, try to make breast cancer screening easier and faster

By [Felice J. Freyer](#) Globe Staff, Updated July 10, 2021, 3:07 p.m.

- 15 percent of patients got their mammograms read instantly – mostly white women with higher incomes.
- We had unintentionally developed this system that supported inequities
- Mass. General began routinely offering patients results right away (via remote reading)
- But most important, the racial and ethnic disparities vanished: Immediate results were offered to everyone equally

# Radiogenomics of Pediatric Brain Tumors – Purpose

- ~ 4,170 new cases in US in 2022, with median survival in primary malignant brain and other CNS tumors being 8 months for glioblastoma and up to 16.6 yrs for oligodendrogliomas
- Grading and classification of brain tumors is very nuanced and World Health Organization (WHO) updates are made often, making clinical implementation and standardization challenging

**Mariam Aboian, MD, PhD**  
Assistant Professor  
Radiology & Biomedical  
Engineering  
Yale School of Medicine

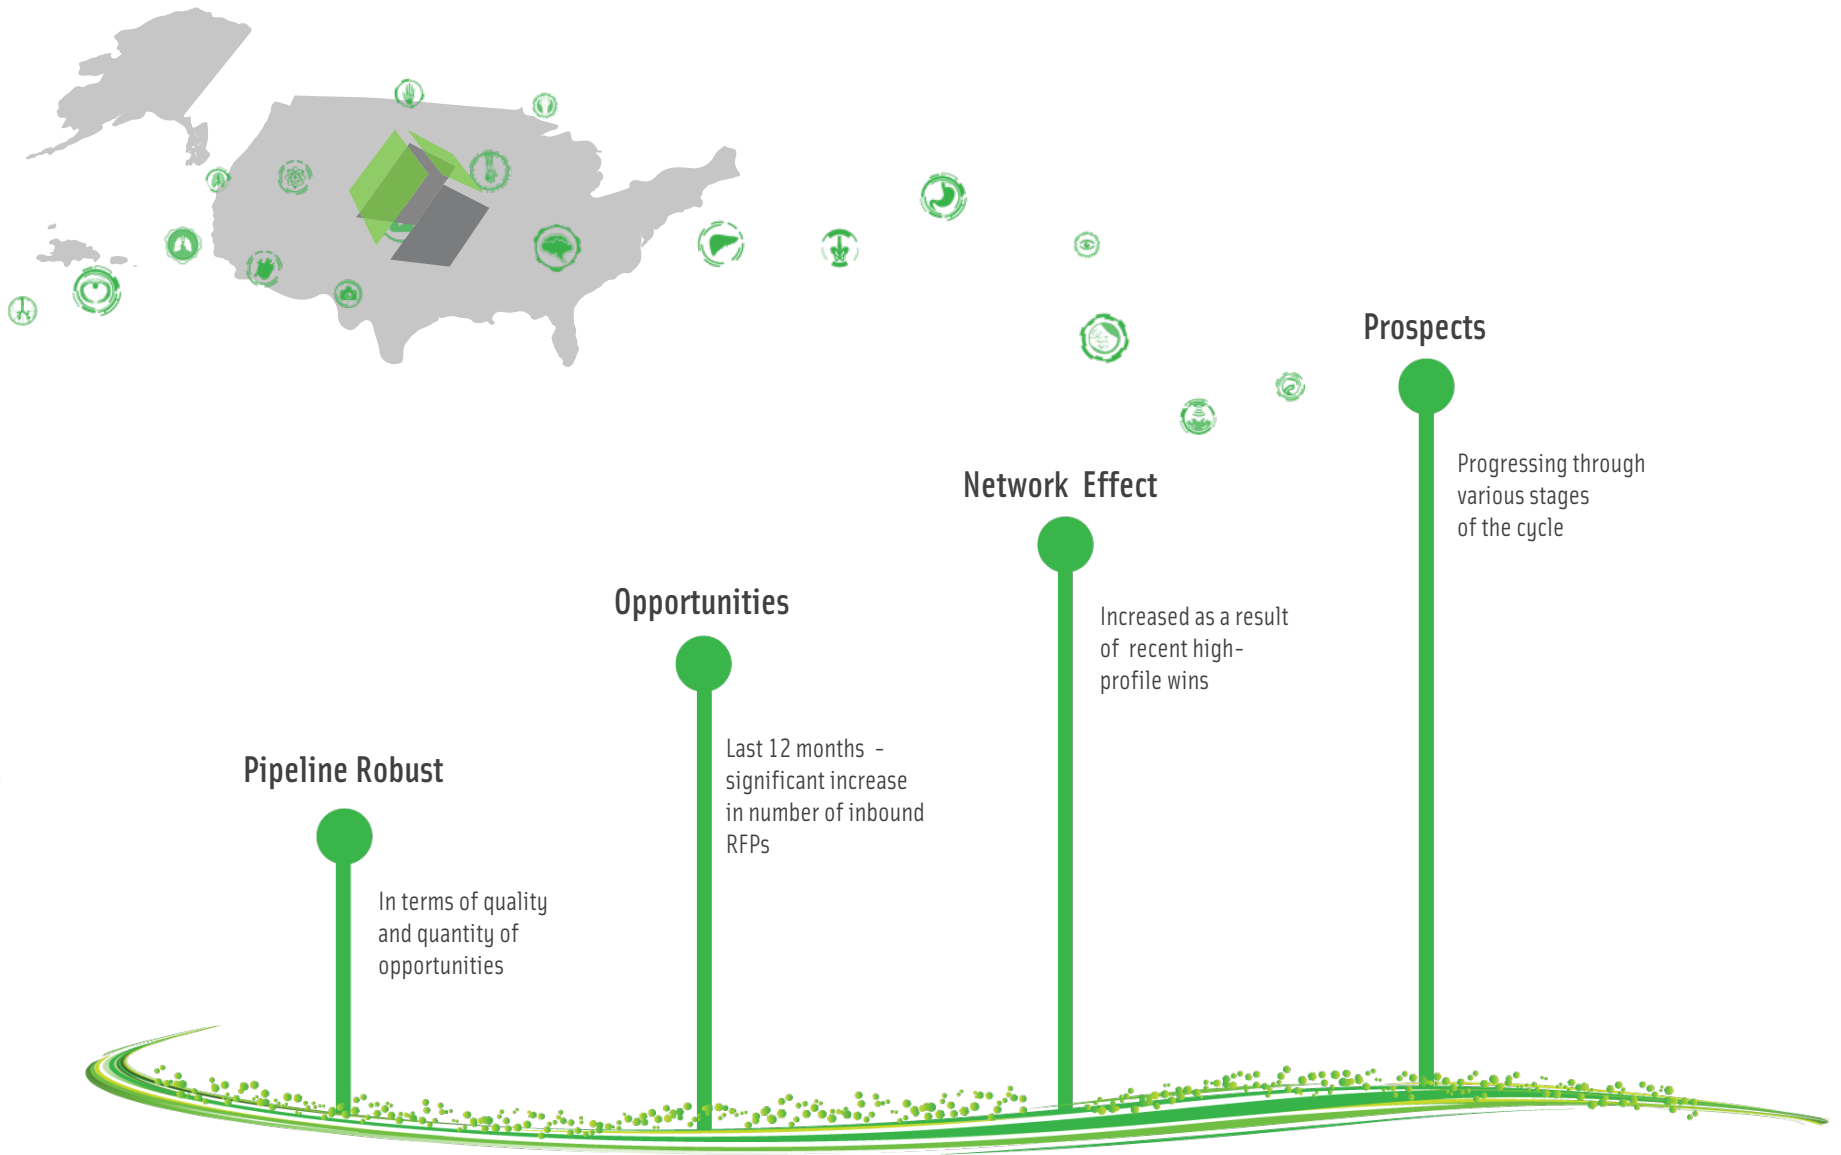

Mixed solid/cystic tumors are difficult to evaluate over time

1D and 2D measurements can be problematic, although are commonly used in clinical practice

# GROWTH STRATEGY

# NORTH AMERICAN PIPELINE

# VISAGE 7 OPEN ARCHIVE

- Same highly scalable Visage 7 platform
- Interoperable – works in complex environments
- Enables choice of modular or single vendor solutions
- Three recent sales - Viewer **and** Visage 7 Open Archive
- Pipeline includes Visage 7 Open Archive opportunities
- Key component of Visage Cloud strategy
- Transaction based model with potential upside

# VISAGE 7 WORKFLOW

- Adds to Visage 7 Viewer and Open Archive modules
- Based on over 30 years experience in Worklist SW
- Allows PME to offer single vendor solution
- Integral part of Visage in the Cloud SaaS solution
- Ability to interface with broad range of AI algorithms
- Transaction based model with potential upside

# NEW PRODUCTS

Visage® 7

# One Viewer™

All Modalities

- Single viewer for **ALL** images in the medical record (EMR)
- Radiology/Cardiology (DICOM format)
- Non-radiology- reflected light – hi-res photos & videos
- Visage 7 technology ideally suited
- Increases Visage value proposition
- Growth opportunities within existing contracts

# Visage in the Cloud

- Visage 7 – fully Cloud native
- Same ultrafast performance as on-premise
- Full Visage 7 functionality
- Security and scale of the cloud
- Complete PACS deployment or as backup/disaster recovery
- Suitable for all size implementations
- Opens new market opportunities
- Significant strategic advantage over competitors

## MASSIVELY PARALLEL I/O

Digital Alchemy for Imaging in the Cloud

Faster-than-flash performance using secure, low-cost storage. We re-architected Visage 7 to intelligently leverage the best capabilities of object-based cloud storage. Up to 60 parallel I/O streams to cloud object storage means that with Visage 7 you get performance that exceeds traditional on-prem flash storage arrays, using one of the least costly tiers of encrypted cloud storage.

Cloud Object Storage

Visage 7 In The Cloud

Visage 7 Open Archive

Visage 7 Workflow

## DYNAMIC ELASTICITY

Adaptive, Balanced Resource Scaling

Visage resources in the cloud are dynamically allocated based on active multi-point monitoring, including user activity and historical trends. This ensures cloud resources are always optimally allocated, allowing you to ride the wave of your patient imaging demands.

## ON-DEMAND STREAMING

Efficient Delivery with Unparalleled Speed

Visage 7 intelligently delivers on-demand access to the entire patient jacket all while using 75% less bandwidth than legacy PACS. Visage 7 streaming leverages end-to-end TLS encryption for enhanced security. The result is faster interpretation, with greater clinical precision, while increasing security and reducing cloud spend.

**Tactical Bandwidth Utilization**  
Read at blazing speeds even on a home internet connection.

Practically limitless ability to scale - Visage 7 can deliver hypersonic speeds to each user, allowing you to leverage all the resources you have now and in the future. With Visage 7, a single client connection can fully utilize network connections up to 80 Gbps. Mind blowing.

# VISAGE 7

# AI

ACCELERATOR

- Unique end to end solution
- Supports both research and production environments on a single platform
- Based on market leading Visage 7 technology
- Enables Visage clients to fast-track AI as part of their imaging strategy
