

Petrackr deals with Chewy and Amazon

Universal Biosensors, Inc. (ASX: UBI) is pleased to announce it has signed a Vendor Master Purchase Agreement with Chewy, Inc. (Chewy), one of USA's largest pet retailers. Chewy recorded more than USD \$11 billion in revenue (2023) and has more than 20 million active customers.

In addition to being able to trade with Chewy, UBI has also launched Petrackr on Amazon.

The deals with Chewy and Amazon are ongoing and can be terminated by either party with 30 days notice.

UBI has been working with Chewy (and Amazon) for more than 9 months building our ecommerce capability such that it can now execute these agreements and begin to make sales on the Chewy and Amazon platforms.

Mr. John Sharman, Managing Director of Universal Biosensors said, "Our initial focus for the launch of Petrackr was to the professional vet network and we have made progress raising the profile of Petrackr in this segment. But it is apparent that whilst we have a much better product than the competition, the majority of sales for vet blood glucose monitoring systems are online. Chewy and Amazon are collectively the largest retailers of veterinary products in North America and UBI expects the completion of these deals to have a material impact on Petrackr sales moving forward."

End

Announcement authorised by the Board of Directors of Universal Biosensors, Inc.

About Petrackr Blood Glucose Monitoring System

The PETRACKR® Veterinary Blood Glucose Monitoring System is specifically calibrated for cats and dogs. The starter kit and PETRACKR® App allows pet parents to easily track, monitor and share their pet's blood glucose results with their veterinarian. The analyzer is Bluetooth enabled to connect with the PETRACKR® mobile app to track, download and share the pet's blood glucose results, insulin doses, meals, and exercise routine. The PETRACKR® handheld Point of Care analyzer puts the power of a lab in the palm of your hand. For additional information visit:
