

QUARTERLY ACTIVITIES REPORT

Activities During the Quarter

Angolan Projects

- As previously advised, VDM has been embroiled in a dispute in relation to its Angolan projects. Arising out of the dispute, VDM's joint venture partner Pebric Mining and Consulting LDA, the holder of the licences for the Cachoerias do Binga (CdB) and Cage Bengo (CB) projects (together, the Angolan projects) for and on behalf of the CdB Joint Venture and the CB Joint Venture, advised VDM that it had assumed full ownership of the Angolan projects, in contravention of the respective joint venture agreements.
- Pebric informed VDM that VDM would need to increase its funding of the projects for a reduced ownership interest, such percentage not specified, also in contravention of the respective joint venture agreements.
- The Company has advised Pebric Mining and Consulting LDA that it reserves its rights.
- As a consequence, no work has been undertaken on either project by VDM during the quarter and since the dispute first arose.
- VDM is presently uncertain as to the tenure of the Angolan project mining licences and the status of the joint venture and has engaged legal representation in Angola to determine the current status of its interest in each of the Angolan projects, the tenure of the licences and VDM's rights and claims under Angolan law.
- The Company will provide further information when it comes to hand.

Suspension from Trading on ASX

- On 20 November 2023, ASX advised the Company that it had determined that VDM's operations are not adequate to warrant the continued quotation of its securities and therefore it was in breach of Listing Rule 12.1. ASX further advised that suspension will continue until VDM is able to demonstrate compliance with Listing Rule 12.1 of the Listing Rules.
- The Company has been considering a range of business opportunities sufficient to meet the requirements of Listing Rule 12.1 to support a recommencement of trading of its securities on ASX and to this end has engaged K&L Gates Legal to advise it.
- The Company will advise shareholders of any material developments as they occur.
