## **Half-Year Review of Operations**

**Reporting Period 1 July – 31 December 2024**

### **HIGHLIGHTS**

- Progressed the ZAR 902.5 million (~US\$50 million) loan facility, covering approx. 55% of the Qala Shallows gold project funding, with Industrial Development Corporation and Absa Bank. Final credit approval was secured in February 2025, post-period.
- New Prospecting Right (PR10730) granted, increasing the Witwatersrand Basin Project's Mineral Resource Estimate by 749,000oz (+17.5%), bringing the total to 5.025Moz @ 4.66g/t Au (@ 2g/t cut-off)<sup>1</sup>.
- Mr Rudi Deysel appointed as Chief Executive Officer.

### **SOUTH AFRICA**

#### **WITWATERSRAND BASIN PROJECT ("WBP"); GAUTENG PROVINCE**

##### **Funding**

During the reporting period, West Wits focused on advancing funding efforts for the Qala Shallows mine, Phase 1 of the Witwatersrand Basin Project. The Company pursued a joint syndicated senior debt loan facility between the Industrial Development Corporation ("**IDC**") and Absa Bank Limited ("**Absa**"). This facility covers approx. 55% of the project's funding requirements, with the balance to be provided through other capital sources such as equity and revenues from ore generated during the development of the mine.

The IDC completed its due diligence in Q3, followed by Absa's assessment in Q4 2024. This comprehensive process covered technical, environmental, social, financial and legal aspects. Upon completion, both entities obtained credit approval in Q1 2025, enabling the Company to secure a credit-approved term sheet for a senior debt syndicated loan facility of up to ZAR 902.5 million (~USD 50 million at an exchange rate of ZAR18.0/USD). The facility remains subject to finalising loan documentation and fulfilling conditions precedent.

##### **Increased Global JORC MRE with granted Prospecting Right**

The South African Department of Mineral Resources and Energy ("**DMRE**") granted West Wits a new Prospecting Right (PR10730), increasing the Mineral Resource Estimate ("**MRE**") by 749,000oz to 5.025 Moz @ 4.66 g/t Gold<sup>1</sup>.

This MRE uplift supports the potential mine life and production extension at Qala Shallows. The Qala Shallows Definitive Feasibility Study<sup>2</sup> reports:

- Ore Reserve: 4.03 million tonnes @ 2.71 g/t for 351,400 oz of gold
- Production target: 924,000 oz over a 17.7-year Life-of-Mine, including Inferred Mineral Resources

The directors confirm that it is reasonable to include these Inferred mineral Resources having regard to the location and geology of the project in the well understood and researched structure of the Witwatersrand Basin and the views provided to WWI by independent geological expert consultants.

**Table 1** summarises the categories of the updated global MRE for the WBP.

**TABLE 1: UPDATED GLOBAL MRE FOR THE WBP AT 2.0G/T CUT-OFF<sup>1</sup>**

<b>Total</b>	<b>33.49</b>	<b>4.66</b>	<b>5 025 000</b>

Notes: The global MRE is set at a 2.0 g/t Au cut-off and reported in accordance with the JORC Code of 2012. Number differences may occur due to rounding errors.

Meanwhile, PR10839 has progressed, with the Environmental Authorisation successfully obtained, a smooth stakeholder engagement process with no objections or appeals, and the final reports submitted to the DMRE. The project is now awaiting formal granting by the DMRE.

**Graph 1** illustrates the WWI MRE and Qala Shallows Ore Reserve growth over time. The WBP tenement area, previously held by DRD Gold, had a Historical MRE declared in the 2000 ASX Report of 12.8Moz at 4.6g/t Gold under the previous JORC Code<sup>3</sup>. Under the 2012 JORC Code, WWI has progressively grown the MRE to over 5Moz @ 4.66g/t<sup>1</sup> and Ore Reserves to 351koz<sup>2</sup>.

#### *Classification of convertible note liabilities on the statement of financial position*

During the reporting period the entity adopted for the first time 2020-1 (2020-6 as amended): Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current, which became mandatory in the reporting period. The impact of the change related to the entity's convertible notes, which included conversion entitlements entitling the investor to convert the notes to equity within 12 months of the reporting date, irrespective of the note's cash redemption date. Previously the entity classified such liabilities as non-current liabilities.

## **Note 2. Material accounting policy information (continued)**

### **Going concern**

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities in the normal course of business.

For the half year ended 31 December 2024, the Group has reported a net loss after income tax and before eliminating non-controlling interests of \$1,725,000 and net operating cash outflows of \$1,182,000. As of 31 December 2024, the Group had \$980,000 cash at bank and net current liabilities of \$3,022,000. These factors indicate a material uncertainty exists that may cast significant doubt on the entity's ability to continue as a going concern.

The Directors consider there are reasonable grounds to believe that Group will be able to continue as a going concern after consideration of the following factors:

- A\$1.82M of the \$2.61M Trade and Other Payables balance are amounts reported by the Indonesian subsidiary group which have been outstanding for over 8-years and are consolidated for group reporting purposes under IFRS only. The directors have an expectation that there will be no cash outflow in respect of these liabilities in their forecasted cash flows for the coming 13 months.
- On 20/02/2025, the Company announced receipt of a credit approved term sheet for a senior debt syndicated loan facility of up to ZAR 902.5 million (~USD 50 million, based on an exchange rate of ZAR18.0/USD) ("Facility"), subject to the conclusion and finalisation of definitive loan documentation and the fulfilment of conditions precedent (which are to be fulfilled to the Lenders' satisfaction) contained therein to provide senior funding for development of its Qala Shallows Gold Project, Phase 1 of the WBP. The Facility, is being provided between the Industrial Development Corporation of South Africa Limited (IDC) for an amount of up to ZAR465 million and major South African bank Absa Bank Limited (Absa) providing the balance, jointly referred to as the lenders (Lenders), and will deliver approximately 55% of all project funding for Qala Shallows gold mine with the balance funded through equity and early revenues.
- The Company is in advanced discussions with investment brokers to secure the equity component of the project finance with strong interest from equity investors due to underlying fundamentals of the WBP which is supported by the Definitive Feasibility Study (DFS), receipt of credit approval from two major South African financial institutions to provide senior debt and the prevailing strength of the Gold price which is at record highs and substantially above the US\$1,850/oz gold price utilised in the DFS.
- The Company's ongoing ability to issue ordinary shares under ASX listing rules 7.1 and 7.1A
- The ability of Group to scale down its operations or redirect exploration expenditure if required, including the ability to defer amounts payable to Directors and Executive as far as necessary should sufficient working capital not be available.
- The Group's tenement holdings, substantial JORC Resource and completed definitive feasibility study on the WBP makes the project highly prospective and should underpin the Company's ability to raise funds for its business needs.
- Under the Mt Cecelia Farm-In Agreement, Rio Tinto Exploration Pty Ltd (RTX) is obligated to fund exploration activities and keep the tenement in good standing. The first stage of the Farm-In Agreement expires in December 2025.

Subsequent to 31 December 2024 and referenced in Note 8, there was a total of 82,389,909 shares issued as a result of conversion into equity of 42 convertible notes. There is a total of 18 convertible notes which have not been converted with a face value of \$450,000. The convertible notes expire on 16 October 2026 on which a cash payment may result if no conversion election is made.

The Directors believe that the above indicators demonstrate that the Group will be able to pay its debts as and when they fall due and continue as a going concern. Therefore, the Directors believe it is appropriate to adopt the going concern basis for the preparation of the Group's 31 December 2024 half year report. The ability of the Group to continue as a going concern is principally dependent upon the ability of the Group to secure funds by raising additional capital and managing cashflow in line with available funds.

## Independent auditor's review report to the members of West Wits Mining Limited

### Report on the half-year financial report

#### Our conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of West Wits Mining Limited (the Company), and its controlled entities (together, the Group) does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year then ended; and
- complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### What was reviewed?

We have reviewed the accompanying half-year financial report of the Group, which comprises:

- the consolidated statement of financial position as at 31 December 2024,
- the consolidated statement of profit or loss and other comprehensive income for the half-year then ended,
- the consolidated statement of changes in equity for the half-year then ended,
- the consolidated statement of cash flows for the half-year then ended,
- notes to the financial statements, including material accounting policy information, and
- the directors' declaration.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

## Material uncertainty related to going concern

We draw attention to Note 2 of the half-year financial report, which indicates that the Group incurred a net loss after income tax and before eliminating non-controlling interests of \$1,725,000 and net operating cash outflows of \$1,182,000 for the half-year ended 31 December 2024. As of 31 December 2024, the Group had \$980,000 cash at bank and net current liabilities of \$3,022,000. As stated in Note 2, these events or conditions, along with other matters as set forth in Note 2 indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

## Responsibilities of the directors for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
