ASX Release

WORLEYPARSONS LIMITED

(ASX: WOR)

Noor Energy 1 Dubai solar power project

Advisian, the global consulting firm of WorleyParsons, has been appointed the owners' engineer to Noor Energy 1 for a 700 MW concentrating solar power installation in Dubai.

Noor Energy 1 is a consortium of ACWA Power and Dubai Electricity and Water Authority.

Advisian will support the project with basic and detailed engineering, technology risk management, factory acceptance testing and technical support as required during construction and commissioning.

The contract is for four years and Advisian will deliver the project using teams in our Spain, Shanghai and Dubai offices.

"With our people having been involved in about half of all concentrated solar power projects globally, we look forward to working on this project which aims to provide solar electricity at a cost that is competitive with conventional power in Dubai," said Andrew Wood, Chief Executive Officer, WorleyParsons.
